Ontario Provincial Police diving team take time out for a breather during training session Tuesday in Horseshoe Lake. The water temperature was a

chilly .7 degrees celcius, or by the old formula 33 degrees fahrenheit.

Church seeks ban on Sunday sex films

A petition from the parish of St. Georges Anglican Church in Haliburton calling for an end to sexually explicit movies that play on most Sunday nights at the Moulou Theatre could be the first step in a battle between theatre owner Lou Consky and a number of community organizations, including Dysart council.

The petition from the Anglican parish was considered at the regular meeting of Dysart council Monday.

The petition says that the type of movies shown at the theatre on Sunday nights "are helping to undermine both morals and family life in the community". It is expected that a number of other petitions from local churches will soon be forwarded to council.

Anglican Minister Trevor Denny said in an interview Tuesday that the view in the petition "is shared not just by the churches, but by a large number of the public".

"I think it is hurting to the community," Denny said. He said the petition refers specifically to the movies shown on Sunday because at the time permission was given for Sunday movies, it was understood that what was shown would be suitable for family viewing.

"If families would go to 'sunday movies together, it would help the families stay together," Denny said.

Dysart Reeve Murray Fearrey said "I think it's quite a reasonable request". "I think that we've got enough support that we should make him (theatre owner Lou Consky of Toronto) aware of the problem".

A second concern of the petition is that persons under 18 are gaining entry to the films, which generally carry a restricted designation.

"You have to agree that the policing of people under 18 is not being carried out as it should be," the reeve said.

Theatre owner Consky said in an interview Tuesday that he was unaware the petition was being circulated until informed of it by the Echo. But he doesn't think a switch to family movies on Sunday nights is likely in the near future.

"When I play a good family movie you can't get enough people into the theatre to pay for it," Consky said.

Consky says he doesn't like the sort of movies that are played in theatre on Sunday nights, but that it's a matter of economics.

"I hate them," he said. "I hate looking at them. But this is the garbage that they (the movie goers) want and this is the garbage that they will pay for".

"I played a good Walt Disney movie last Friday night, and I didn't get enough people to pay the express charges for sending the film up," Consky said. He also pointed out that the played "Who Has Seen the Wind", a fine Canadian film suitable for family entertainment, and again did not take in enough at the box office to pay the express and other charges for obtaining the film.

"What else is there available?" Consky asked. "There is nothing else available to play. That's the way the industry has gone".

"I'll play anything that I can," Consky said "but if I play anything that loses money, the council will have to provide entertainment".

Consky said the Sunday movies usually draw from 50 to 75 people "and if they want to see it, that's their prerogative".

The theatre owner said he often holds good movies of a

family nature over to Sunday night as well, but that if a separate film is to be shown on Sunday night, it usually carries a restricted rating. "Anything that has a general or a family rating wouldn't pull a hen off a nest", he said. "I don't think that I'm corrupting the town," Consky said. "It doesn't matter where you get your appetite from, as long as you eat at home".

Consky said movies that emphasize sex and violence are the general trend in the industry.

He said he didn't know what the answer was to the problem as it is presented in the church petition. "I can close down Sunday night," he said, "but I think they'd better take it up with the censor board".

"I'll co-operate with them to the best of my ability," Consky said. But he added that "if the people didn't

want that type of entertainment, they wouldn't come".

Consky said there will be good films suitable for family viewing at the theatre over the next two weekends, including both the Sunday nights. "The Spy Who Loves Me" and "Oh God, will be featured," he said. "Let's see what kind of a turnout I get for them".

Don Sims, director of the Theatres Branch and chairman of the Ontario Board of Censors, said in an interview Thursday, that once a movie is passed by the board, which was recently given a mandate to censor from the Supreme Court "it's up for grabs".

Sims said the board is tightening up, but that "restricted films always will contain a little sex, a little violence, a little swearing".

Sims echoed Consky's view about quality movies. "People complain about a bad movie," the censor board chairman said, "but they won't support a good one".

He said the board issues clear information and warnings about the content of films, so the public can make an informed choice about seeing it or not seeing it. "The best way to stop a program" of restricted movies "is to not go to it," Sims said.

He noted that the board has a file of petitions from community groups across the province expressing concern about the content of modern films. He said mounting concern can have an effect on the censorship of films.

Sixty percent of the films that pass through the office of the censors, "are problem pictures to us," Sims said. "I wish that it were a different story, but you know, it's not easy".

Dysart council decided to forward a letter to Lou Consky, informing him of the complaint contained in the petition, and noting its concurrence with the request for family movies on Sundays.

Cost will total \$200,000

Museum work to begin

Construction of the new Haliburton Pioneer Museum is slated to begin "as soon as weather conditions are suitable," Jerry Dawson, Chairman of the Pioneer Museum Committee told a meeting of the Haliburton Rotary Club last Thursday night. Completion of the building should come by the end of June, he said.

Plans to build a new museum were announced early in January by the Museum committee and Dysart et al council. The two storey structure, designed by architect Napier Smith, will be located at the entrance to Giebe Park on the north side of Head Lake.

The two storey building, which will measure 72' by 33' will have a large display area

on the second floor, and a meeting hall and storage facilities on the ground floor. Facilities will also be provided on the ground floor for restoration work.

A call for tenders produced nine bids, Dawson said, and the contract was awarded to Mercon Construction of Bracebridge, the lowest bidder at \$119,759. The price is for the construction of the main building only, Dawson said. Display cases and other inside fixtures will be added at additional cost.

Original estimates of the total cost of the Pioneer Museum project, which may also include the restoration of a 19th century house, a maple sugar shack display, and other pioneer artifacts, were in the \$220,000 range. Dawson said the committee now

thinks the cost will be about \$200,000. He said it was difficult to determine the actual cost, because the municipality has agreed to do levelling and grading work at the site as part of its contribution to the project.

Wintario grants should meet 50 percent of the project cost, Dawson said, with 25 percent coming from the municipality and the other 25 percent donated from the private sector.

Interim funding for the project must be arranged by the Pioneer Museum committee, since Wintario funding will not be available until the building is completed, Dawson said. The Haliburton Rotary Club has pledged to contribute \$25,000 of the \$50,000 private sector cost of the project, by September 1, 1980.

The Rotary Club will get some sort of recognition at the site, and will have a reasonable amount of input into the museum itself, Dawson said.

The committee chairman said plans for the building have been drawn up, but are not inflexible. "I think there will be some changes there that will develop as the project develops", he said. The design of the museum

was reviewed by the Museum branch of the Federal government, who suggested a few minor changes in the design, Dawson said. He noted that a grant of \$5,000 may come from the Museums Branch eventually.

In addition to the main museum building, project plans call for the relocation at the site of the Reed house. The house would be restored and furnished in the period of the 1880's eventually, the museum committee hopes. Dawson noted that the home has an interesting history, and said plans call for a history of the house and the Reed family to be written and displayed for visitors to the site.

Dawson said the committee and the municipality hope to develop the park and the museum site as a tourist attraction, not simply a museum. He said the building should be open year round and available for use by the public for meetings and other activities.

Dysart Reeve Murray Fearrey told the Rotary meeting that the ongoing cost of maintaining and operating the building and the park site will be met by the municipality. But construction costs are

Cont'd. page 2

Minden will fight to keep hospital

The role study commissioned by the Canadian Red Cross has recommended that the Minden hospital be turned into a clinic facility, but residents of the village don't intend to let that happen without a fight.

Since the meeting was held two weeks ago at which the conclusions of the report were made public, a number of people have submitted letters and briefs to the Anson, Hindon and Minden municipal

office, asking that the hospital be left open. Petitions have also been on display in local stores for residents to sign.

Reeve Reg Booth said he has been in contact with both MPP John Eakins and MP Bill Scott on the matter of the fate of the Minden hospital, and that both have expressed concern about the conclusions of the report. Booth said the municipality has asked, through the MP and MPP, for a meeting with the minister of health to discuss the matter.

"The people want the hospital to remain as it is," the reeve said.

The study proposed that the Minden hospital should become a clinic facility, with the bulk of medical services, and in patient care being transferred to the Haliburton Red Cross Hospital.

At press time Tuesday, the reeve was still waiting for a call from John Eakins on the proposed meeting with the Minister of Health.

Dysart wants

OHIP user fee

The council of Dysart et al is upset with the increase in OHIP fees announced last week by provincial treasurer Darcy McKeough, and has decided to propose an alternative to the jump in fees.

Reeve Murray Fearrey proposed that a resolution be sent to the treasurer, calling for the implementation of a \$2 user fee. Under the proposal contained in the Dysart resolution, everyone visiting a doctor would pay a flat \$2. "If this were done, the OHIP rate

Cont'd. page 2

Canoe for prince used local lumber

When England's prince Andrew left Canada last summer after spending a term at a college in Lakefield, he took a little bit of Haliburton County with him. What he took was a canoe made by Peel Marine of Lakefield, and some of the wood in that canoe came from Hyland Lumber in Haliburton.

Boyd Chatton of Peel Marine said in an interview Tuesday that oak used for the ribs and keel pieces in the canoe the prince took home came from Hyland Lumber.

Chatton, who often spends weekends in the Haliburton area, said he finds it convenient to choose lumber for the high quality cedar strip canoes like the one the prince has, from the Haliburton company.

The canoe was made by Walter Walker, a 70 year old craftsman who has been making canoes for most of his life.

Choosing the wood is an exacting process Chatton said. It can take two hours of careful picking and choosing to come up with a pickup truck load of straight grained and blemish free lumber for use in a cedar strip canoe.

Chatton says the canoe that went to the prince was no different from any other made by Walker. They sell for \$895, and are, in Chatton's words, "the Cadillac of canoes".

The canoe was purchased by the village of Lakefield as a gift for the prince. Chatton says private companies are not allowed to give gifts to the Royal Family, but it is common practice for municipalities to give such gifts.

Hey, what hit me? as two might tykes collide during a hard fought game in the recent Glen Dart Memorial Tournament at the Dysart Community Centre.

Happiness is taking home a championship trophy from the Glen Dart Tourney. Here the captain of the Wilberforce Atom team is being presented just that by Mrs. (Glen) Nellie Dart.

Was it faster than the mail?

Helium balloon came from Indiana

Most people are familiar with the comic strip stranded sailor who puts a message in a bottle and trusts his fate to the meanderings of ocean currents. But the scenario

took a new twist in Haliburton County last week, in the form of a message found inside a helium filled balloon.

Andy Hill of Ingoldsbys, a 16 year old grade 11 student at Haliburton Highlands Secondary School, was out with a friend, Jim Hicks, at about 5:30 p.m. last Thursday,

when the two spotted an orange, helium filled balloon in a tree about 2 1/2 miles south east of Ingoldsbys.

Inside the balloon was a message, typed on a strip of paper. It said "Thinking Day, February 22, 1978. Troop #171, Kristie Nusz, 4550 Cleveland, Gary, Indiana."

The balloon had travelled about 650 miles from Indiana to Haliburton County before the two youth found it.

Andy obtained the number of Kristie Nusz and phoned

her to say that the balloon and its message had been found.

Thinking day, apparently, is an annual event for Girl Scouts in the United States.

There was no word on how many other balloons may have drifted into the area carrying messages from Cleveland, but OPP switchboards have not been flooded with UFO reports, so the one Andy Hill and Jim Hicks found may have been the only balloon to catch the breeze to Haliburton.

O. P. P. Constable Bob Pearson of the Minden Detachment prepares to take the plunge into the freezing waters of Horseshoe Lake on Tuesday. Constable Pearson along with Frank Wilson of the Lindsay Detachment and district dive master Barry Connelly took part in the exercises and the opportunity to test some new equipment.

Divers brave icy lake to test gear

by Bill Davis

Local OPP divers from Minden area were involved in a two day training program in the Highlands Monday and Tuesday.

Under the supervision of senior force diver Ray Porpealia from general headquarters in Toronto, Constable Barry Connelly and Bob Pearson from the Minden detachment and constable Frank Wilson of the Lindsay detachment took part in a diving exercise in the chilly waters of Horseshoe Lake on Tuesday.

These three divers are part of a special 46 man force that makes up the largest police diving team in North America.

These three divers are part of a special 46 man force that makes up the largest police diving team in North America. In the Peterborough district officer Barry Connelly is the Head divermaster. Porpealia informed the Echo that the maneuvers are common training for the special force. However, he said this year it had a two fold purpose as the Royal Canadian Navy had assigned the

Monmouth gets grant

The Township of Monmouth has been awarded a \$6,848 community planning study grant from the Ministry of Housing, according to a news release from the Ministry. The money will be used for the completion of a zoning plan for the township.

The grant is one of 11 recently awarded to Ontario municipalities.

The grants are designed to assist municipalities and planning boards in preparing official plans and zoning by-laws or in bringing these up to an acceptable level.

The funds can also be used in preparing zoning by-laws to replace minister's zoning orders, to finance planning programs for unorganized territories or for other relevant planning studies.

These grants are allocated as part of the Ministry of Housing objective of helping municipalities and planning boards prepare sound planning programs, the release says.

Museum project

From page 1

not expected to burden Dysart ratepayers, the Reeve said. "We don't anticipate the initial expenditure going on the tax bill at all".

OPP four new regulators for testing, Connelly said that in the past there has been some problem of regulators freezing in the cold water. The temperature in Horseshoe lake stood at -7 celsius for the dive Tuesday.

Part of their training involves proper safety under the ice surface. In recent years they have been called on more often to make under the ice searches, Porpealia indicated, partially because of an increasing numbers of snowmobilers on lakes.

During the summer months these divers make random dives around most government docks and beaches, and a lot of stolen property has been recovered in the past.

Connelly informed the Echo that in this district there were eleven operational dives made last year. Eight of these were to recover drowning victims and three to recover stolen property. In all but one case, the subject of the search was recovered. The body of a Toronto man has yet to be recovered, John Turban of Toronto drowned last year in Gull lake and despite repeated searches, the OPP team was unable to recover the body.

Porpealia has had vast experience in diving. Before joining the OPP in 1964 he worked as a commercial diver in the gulf of Mexico. When asked about the worst disaster he has been involved in since joining the force, Porpealia stated that he led the diving squad that recovered the eleven victims of the East Cliff Hall boat tragedy in the St. Lawrence river in 1970. He explained that locating

the boat in 70 feet of water was no problem, but the victims' bodies had to be removed from deep within the hull.

Porpealia also headed the search last summer in the James Rolow murder case. Many will remember the city hall employee who has been accused of murdering his wife, son and daughter. The son's body was never recovered.

His most interesting case occurred recently, when he was called 200 miles north of Sioux Lookout to raise a DC3 plane, which contained the body of the pilot.

Connelly divermaster for this district, said that diving was not an amateur sport to be taken lightly. All regulations and graphs should be adhered to or inexperienced divers could find themselves in trouble.

Connelly said that a good diver seldom has to get himself out of trouble, because a good diver does not put himself in that position.

Porpealia indicated that the only fringe benefit that has been derived from this occupation is that he seldom buys any fishing tackle.

Main street beautification committee formed

The first, tentative step toward the establishment of a business improvement area in the village of Haliburton was taken last Wednesday night at a meeting at the Dysart arena auditorium. Approximately 40 area business people and interested citizens turned up to watch a slide presentation and hear a talk by Earl Miller, an official with the Community Renewal Branch of the Ontario Ministry of Housing.

Haliburton Highlands Chamber of Commerce manager Bob Stinson, who chaired the meeting, said the thought of establishing a business improvement area in the village came as a result of a letter from a visitor to the area, who noted that the village had a lot of potential, but needed a facelifting.

Stinson noted that merchants face a challenge in trying to lure summer business because many of those who own cottages in the area avoid coming into the village as much as possible. He suggested that the way to lure people into the village did not lie in lowering prices, since most business people could not do so and remain profit-

able, but rather in beautifying the village to make it more attractive to shoppers.

The establishment of a business improvement district (BIA), depends primarily on the initiative of local business people, Earl Miller told the group. "Business people have to get together and decide that they are going to pursue a certain direction."

The main requirement is that merchants sit down together and discuss the problems that exist on the main street. They can then decide what sort of beautification program should be undertaken, Miller said. By improving the shopping district, it is hoped that more business will be generated, he said.

Miller said the first step toward the establishment of a BIA is for merchants to form an association. Once that association has decided on the sort of improvements that should be made to the business area, it must make application to the municipal council for the designation of a BIA. Once council has approved the idea in principle, it must then, under the terms of the Municipal Act,

notify all property owners in the area covered by the proposed district, and a two month period is provided for objections.

Money for any improvements must come from the business people themselves, in the form of levies imposed by the municipality on the basis of the assessed value of properties in the BIA. There is no government funding available for such projects, Miller said.

In one third of the merchants in the area covered by the proposed designation were to object, then the project could not proceed, Miller said.

Miller stressed that a consensus among all business people was the key to a successful improvement project.

Following approval of the designation, a committee including representation from council, is formed to act as a board of management, Miller said. The board draws up a budget and petitions council for the money to carry out the projects proposed for the beautification of the business area. The budget only applies for one year, and \$10,000 is

the maximum amount that can be spent. The money called for on the budget must be raised by business people through levies in that year, Miller said, to ensure that future business people and future councils are not stuck paying for something they did not initiate.

Most of those present at the meeting were enthusiastic about the idea of establishing a business improvement area. A lack of parking

space was one of the main problems seen by merchants, and it was felt that something could be done to improve the situation if a BIA project was undertaken. Improvements to sidewalks, the addition of better lighting, benches and planters were also suggested as important goals.

Dysart clerk Wayne Wood noted that an extensive repaving project is slated for next year along highway 121 through the village. The municipi-

ality will be constructing new sidewalks in conjunction with the project, Wood said, and suggested a merchants association could provide some input into the form those sidewalks will take.

A committee of about ten merchants was formed to investigate the BIA concept further. It is expected they will meet later this week, and will come up with a concrete proposal which can be taken to Dysart council.

OHIP user fee proposed

From page 1

could be reduced for those who do not misuse the benefit the resolution says.

Reeve Fearrey said he understood the reason for the hike in fees was to offset rising costs, as well as to act as a deterrent to the misuse of health care in the form of unnecessary visits to doctors. But, he, and the other mem-

bers of Dysart council, felt the increase proposed by McKeough could well have the opposite effect, with people visiting doctors even more frequently in order to get their money's worth from the higher OHIP fees.

"I think they need a little deterrent," the reeve said, and he felt the \$2 user fee

could be such a deterrent. "The one who suffers", deputy reeve Harold Bannon said, "is the one who pays his own fees" under the scheme proposed by McKeough.

Council endorsed the resolution proposed by Reeve Fearrey, and will send it to the treasurer for consideration.

Dysart council briefs

At their regular meeting March 13, the council of the municipality of Dysart et al considered the following matters:

Council authorized road superintendent Howard Roberts to advertise for a part time roads bookkeeper. Roberts was also appointed weed inspector for 1978.

Council will apply for a \$5,000 grant from the Ministry of Culture and Recreation under the Experience '78 program. If the grant is approved it will be used to hire student help to paint the arena, and to work at other projects related to recreation in the municipality.

The reeve and clerk were authorized to sign building documents related to the new Pioneer Museum project slated to begin in the next few weeks.

An application from Allan Perry for the establishment of a derelict vehicle yard was approved, subject to approval of the Ministry of the Environment. Perry must seek a

hearing on the matter with the Ministry.

Council passed a by-law to charge a fee of \$1.25 per 1000 to sewage contractors who dump into the municipal sewage system. The by-law says all dumping must be done at the sewage treatment plant.

The tender from Can Am for approximately 110,000 gallons of road oil for dust control on municipal roads at 32.9 cents per gallon was

accepted. Council noted that the rate was 2 cents per gallon higher than last year.

The tender from Curry Motors for a new GMC diesel truck with dump body and plow harness was approved by council. The truck will cost \$38,758.61

General accounts of \$26,228.34; Road accounts of \$35,066.79; and Social services accounts of \$7,458 were approved for payment.

OPP report occurrences

During the week of March 6 through March 12, officers of the Minden detachment of the Ontario provincial police investigated 60 general occurrences.

There were eight motor vehicle collisions, five reportable and three non-reportable.

Five break-ins were also reported, and 15 cottages were found to be insecure. Eight persons were charged

with snowmobile violations and one person was charged with impaired driving.

One person was charged with a liquor violation, and one compassionate message was delivered.

Glen Dart tourney roundup

A family presentation as members of the family of the late Glen Dart prepare to hand out the silverware to the Captain of the Otonabee Midget

club. From left: Mrs. Roger Dart, Nellie Dart, Don Dart, Captain of Otonabee team and Roger Dart a son of the late Glen Dart.

Mighty tykes battle for the puck in the intensive

action while participating in the annual Glen Dart Memorial Tourney.

Last weekend the 26th annual Glen Dart tourney was held at the Dysart community center. The calibre of hockey and sportsmanship that was displayed was tremendous and both players and coaches are to be commended.

On Friday evening the newly formed novices took to the ice in a game that featured two Haliburton teams and treated the crowd to a taste of what the game of hockey is all about. These players aged 7 and 8 years old played to a tie after a period of overtime. It was fitting that the committee decided to leave the game in a tie and award both teams a trophy. These young players are the Huskies of tomorrow and if the desire remains we are going to have some great teams in the future.

Dean Brownson fires two goals in Tyke action

In the tyke division of the Glen Dart tourney it was once again two Haliburton teams with the red team the victors on the strength of a two goal performance by Dean Brownson.

Shawn Perrin had tied the score for the blue team and with just four minutes remaining it appeared as if another tie game was in the making. But with just 3:49 remaining Brownson scored on a partial breakaway to give the red team a narrow 2-1 victory.

Council wants to retain license fee right

Dysart council wants to retain the right to set licensing fees for businesses at a level sufficient to pay cost of administration and investigation of those licenses. Under the terms of Bill 119, which is currently before the Ontario legislature, most licensing categories would be eliminated, and replaced with a flat \$2 or \$3 fee.

Council endorsed a resolution from the Town of Markham Monday, asking that the bill be scrapped or altered to leave the right to charge licensing fees in the hands of municipalities.

The Markham resolution says that if the fees are set at the low flat rate, administrative costs will have to be borne by the municipalities, placing an extra burden on taxpayers.

Licenses in Dysart range from as low as \$5 for some businesses, to as high as \$100 for a transient pedlar. The high fee for transient merchants is intended to deter them from undercutting local

Pee Wees hang on for 3-2 win.

In the pee wee division it was a cliff hanger all the way which saw three goals in the last two minutes of the game to enable the Haliburton squad to gain a 3-2 victory over their new cross county rivals from Wilberforce.

Wilberforce opened the scoring at the 4:42 mark of the second period when Glen Clarke beat Tim Deremo in the Haliburton net. With three minutes gone in the third period Warren Perry scored to move Haliburton into a tie.

Haliburton took a one goal lead with 2:48 remaining when Brad Chambers scored. However with just 57 seconds remaining Glen Clarke scored his second of the game to move Wilberforce into a tie once again and at this point it looked like the third tie game in the tourney. With just 27 seconds remaining Rick Barnum beat the Wilberforce goalie from close in and Haliburton skated away with the honors on the strength of a 3-2 win.

Bantams win over Minden. Haliburton fired four unanswered goals in the second and third period to skate away with a 4-1 win.

Minden opened the scoring at the 4:48 mark of the first period when Camaron Monk teamed up with Paul Northey to give them the lead. Haliburton's Paul Madden fired his first of three goals to tie the score at the 1:35 mark of the second period. Madden scored again at the 5:12 mark and Andrew Hodgson added another at the 8:13 mark. Madden scored his third with just 31 seconds remaining.

Minden goalie Terry Allore made some fantastic saves in the game and probably kept the score as low as it was. Keene wins Midget division. Keene scored one in the second and three in the third as they surprised the Haliburton team in a 4-3 come

from behind victory. Trailing 2-1 after two periods Keene came out fired up in the third and fired three goals to Haliburton's one. Haliburton scorers in the game were Chris Roberts with two and Brian Lloyd chipped in the other.

Cam Monk of the Minden Bantam team receives most outstanding player award from Pauline Brohm at conclusion of game in the Glen Dart tourney.

Smiley

From page 5 missed long, deadly dull periods of training, and short, intense moments of sheer terror.

They missed being shot at, physically, by perfect strangers, and shot down, verbally, by people on their own side.

They missed the utter blind confusion of the amateurs in charge of the war. Migawd, those idiots lost an entire wing of Typhoons for a full week.

Nobody, least of all Intelligence, had a clue where it was. I air-hitched all over southern England and northern France before I found the blasted thing, all on my own.

Let's see, have I left anything out? Well maybe I have. First I'll take that back about stupid senior officers. There were plenty of those in

Canada, too, so you didn't miss that.

Perhaps you missed the joy of climbing out of your aircraft after an operation, lighting a cigarette, and talking a wild blue streak of relief and let-down.

I guess you missed the glory of heading off for a week's leave in a strange country, loaded with lust, a month's pay in your pocket,

and the secret sweetness in your head of knowing that nobody would be shooting at you for seven days.

And you did, I must admit, miss the girls. Not all of those fumbblings in the blackout were frustrating.

But I still say we were all crazy to volunteer, and even vie to be killed. Must write a paper on that some day.

Metric coming for construction

John Eakins, M.P.P. (Victoria-Haliburton) states that Victoria-Haliburton residents should be aware of the Ontario government's support and plans for metric conversion.

Housing Minister Claude Bennett announced recently that the ministry has initiated metric conversion for its

construction program. Mr. Bennett said:

'This ministry works closely with the construction sector and, in keeping with our support for the metric conversion program, we plan to tender the bulk of our 1978 construction projects in metric.'

Damage is \$2100 in car crashes

No one was injured, but damages totalled \$2,100 in two motor vehicle crashes in the last week, Minden OPP report.

\$1,200 damage resulted from a crash on County Road 4 at Flemming Road in Monmouth Township. OPP report Lloyd Percy Odorizzi, 49, of Port Loring, was eastbound on County Road 4 and making a turn, when his vehicle collided with another, driven by John Arthur Footitt, 24, of Harcourt. OPP say Footitt was westbound on County Road 4 when he applied his brakes and slid partially into the eastbound lane. Both vehicles were obscured by high snowbanks, the OPP say.

Damage to Odorizzi's car was estimated at \$400. Damage to the Footitt's car was estimated at \$800.

No charges were laid. In another crash, damage totalled \$900 when a following driver attempted to pass a car that was about to make a left turn.

OPP say a car driven by

Dianne M. Hagerman, 27, of West Guilford was eastbound on highway 121 near the junction of highway 35 in

Minden Township, and about to make a left turn, when a car

driven by Terry W. Sutherland, 21, of RR 1 Minden pulled out to pass, and struck the left front corner of the Hagerman vehicle.

Damage to the Hagerman vehicle was estimated at \$400. Damage to the Sutherland vehicle was estimated at \$500.

No charges were reported laid.

Haliburton may get veterinary

A doctor of veterinary medicine has indicated an interest in locating in Haliburton, Dysart council learned Monday.

Reeve Murray Fearley told council he had been approached by Bill Vanderweken, who is currently practicing in

another community, and that Vanderweken had indicated an interest in moving to Haliburton to set up a practice.

The Haliburton County Livestock Producers Association, in conjunction with Victoria Haliburton Agricul-

tural representative Carm Hamilton, have been seeking a vet for the area for some time.

Council agreed to send a letter to the Livestock Producers Association, and to Carm Hamilton, asking them to support the application of Vanderweken.

Censorship

The controversy that is currently gathering steam about the type of movies that appear on Sunday nights at the movie theatre in Haliburton, should not be taken lightly. It involves questions of censorship and community morality that have a significance beyond the specific problem being addressed.

Spearheaded by the Anglican Parish, a number of local churches are currently gathering names on petitions calling for an end to the type of movie that is restricted, and contains scenes of an explicitly sexual nature. The argument, as presented in the petitions, one of which was considered by Dysart council at its Monday meeting, is double edged. The churches, who claim to have the support of a large segment of the population, say that when the agreement was made to allow Sunday movies, it was a provision of the agreement that movies suitable for family viewing would be shown on Sundays. The petitions also claim that young people under the age of 18 are being admitted to the theatre to view movies carrying an "R" designation.

Theatre owner Lou Consky, of Toronto, claims that family movies do not draw sufficient crowds to be profitable. Ironically, he points out, those which glorify violence and demean sex, are generally more profitable.

There is little doubt that the churches, and those who sign the petitions, are convinced they have the best interests of the community at heart. But it is also clear than any moves toward collective censorship, as advocated in the petitions, should be approached with great care.

The right of censorship has, to some extent, been provided to a public body, the Ontario Censor Board. Movies are screened by the board, and are rated general, adult or restricted, according to their content. We, as citizens, have given the board the right to act as censors for us.

But beyond that board, the right of censorship is, and must remain, a personal matter. Those who find certain movies offensive, should avoid them. Those who wish to see such movies ought to retain that right.

So long as the petitions refer specifically to the terms of an agreement, and do not seek to impose censorship on the entire community by advocating a ban on all "R" movies, they can do little harm. But any steps beyond that would come dangerously close to an infringement on the freedom of choice all Canadian citizens enjoy. That freedom must be preserved.

Support locals

We are certainly pleased to announce that the Canadian National Railways have daily service now into the Highland of Haliburton. Everyday, with the exception of Sunday, Norm Greenfield of Haliburton who operates a local cartage service and is the C.N.R. representative for this area picks up the deliveries at Kinmount, then crosses over to Norland up to Moore's Falls and on to Minden then to Haliburton. From Haliburton the deliveries are made to the other areas such as Carnarvon, Eagle Lake, the East country, Haliburton and Kennis Lake and all other centres in the County.

In the past it boiled down to the fact that the CNR only had two day service but now that has all been changed and we now have it on a daily basis.

As we all know you can only cut a pie into so many pieces and with so many other outside transports, cartage trucks and so on it brings with it quite a burden on Watt Express of Haliburton and Freightmaster who operates out of Minden. At the present time these two firms who have served you well in the past are faced with competition from outside firms such as CPR who run a truck into the area, a private cartage service and Purolator plus others.

Some local merchants tell us that they specify when they order goods to have it sent either by CNR or Freightmaster but this seems to be ignored and it arrives by some other outside firm. There is one answer to this and that is to refuse it right at the time and tell them to take it back. The company who have shipped the parcels will get the message and will then ship it the way they have been told.

Let's not forget that Freightmaster employ several men from Minden who buy most of their goods locally from local merchants and Norm Greenfield who runs a cartage service for the CNR lives in Haliburton, takes a part in the community and buys everything from you the local merchants.

If these two local operations are hoping to continue to exist they must have the support of everyone. You can give them this support by making sure that the shipper sends it either by CNR or Freightmaster.

Letters to the Editor

To the Editor:

The inference in your editorial of Wednesday, March 8, in regard to the Minden hospital is a sad example of Haliburtonian chauvinism and parochial thinking!

To suggest that the Minden hospital should become a 'glorified first aid station and a 'retreat' for the chronically ill, is most short sighted and unrealistic!

The Minden hospital is situated immediately adjacent to a major road artery, highway 35!! It is the only hospital between Lindsay and Huntsville with direct access to that highway! To imply that patients, particularly the elderly from the Hyland Crest Home, should be subjected to a 17 mile journey (34 mile round trip) on a winding road, which can be a risk in the winter months; when the Minden hospital is about a mile from the Hyland Crest Home, is ill considered and unnecessary!

I must also stress that the Minden Hospital provides a service at less cost, in addition to Anson, Hindon and Minden to the Townships of Lutterworth, Snowdon, Somerville (Kinmount) and Stanhope; not to mention its accessibility for Laxton, Digby, Longford and as far south as Cobocok on occasion! This aspect is not adequately portrayed in the Red Cross report! There is also insufficient mention of the additional burden of the vast number of cottage and casual visitors, during the summer season. This latter traffic is increasing in the winter months.

The present medical coverage is in my experience since 1973, the best Minden has had in that period and profoundly compliments the ability of an overworked, conscientious and very competent doctor. It would be a grave error to ignore this fact.

I must however impress on any who may read this missive, that the Haliburton hospital fulfills an adequate service within its geographical area; each hospital therefore, should be complimentary to the other BUT neither should receive priority over the other.

Sincerely,
Glynne Lewis
Minden, Ontario

To the Editor:

Thank you to L.K.T.A. and their many sponsors for the snowmobile rally held at Haliburton Marina on February 25th last. Though your time and effort was only rewarded by the perfect weather and not by the number of participants, the snowmobilers who did not enter were the only losers. We had a fantastic time and have no criticism whatsoever over the way the rally was handled.

To all the snowmobilers who wasted this day by just riding the trails, as we met a number of them, you missed a good time.

Thank you again L.K.T.A. for your continued support in the enjoyment of snowmobiling.
The Harlow Family,
Scarborough, Ont.

To the Editor:

As curator of Minden Women's Institute, Tweedsmuir Village History we just finished looking through and clipping out articles and pictures from your weekly newspapers. We find early pictures very helpful in adding to our Village History and welcome any additions either in picture or written facts. If you have a brief history of your pioneer or any early residents of our County we would be pleased to receive these. This Village History is at Minden Library at all times and may be read there. Perhaps we might fill in "Your Family Tree".

So keep those articles and pictures coming.

Sincerely
Joanne Sears
Minden, Ont.

To the Editor:

I know the direction our country is headed for - disaster!

Our dollar is the lowest since the great depression and our unemployment the highest. I'd say we are in 'a high priced depression' right now.

Two months of electioneering won't make up for ten years of sitting on the fence neither can the worst government we have ever had up in Ottawa blame all their mistakes on world conditions or we the public.

Yours truly,
Fred Dewhurst,
Minden, Ontario

Editor's Notebook by Len Pizzev

Have you ever found yourself in this situation? You're sitting around with a group of acquaintances, usually male, but females needn't be counted out, when one of them turns to you and asks what you thought of the Leaf game Wednesday night. If you're like most Canadians, you'll probably be able to say something witty about the weak kneed Leafs, or the finesse of this or that player on a particularly important play. But if you're like me, you'll probably just smile sheepishly and mumble something about not catching the game. If your lucky, you'll get away with it, but it often happens that you'll be pressed about your woeful ignorance on the subject of hockey. And then, if you're like me, you'll have to explain that you're really not interested in hockey, except maybe during the Stanley Cup, when its worth watching. And in another season, if you're like me, you'd probably have to explain that you aren't very interested in football, and even less in baseball. It can be very exasperating, not so much because of the questions, but because of the response your answer usually brings. People generally think there must be something wrong with you if you don't get excited about the Blue Jays, or the Vancouver Canucks, or whoever.

Well, I can't and I'm not sorry about it. But that doesn't mean I don't like sports. Quite the contrary. I just don't like sports where people are paid outrageous salaries to entertain a passive public.

Bust most Canadians don't see it that way. You have only to glance at the sports page of the Globe and Mail to see where our priorities lie. A Blue Jay sprains his thumb, or shows up 20 pounds overweight at training camp, or holds out for a few more tens of thousands, and its on the front page. But are the Blue Jays and the Leafs all there is to sports? Absolutely not. Did you know that Canada cross country skiers dominated the North American championship last week? The Globe put it on the bottom of an inside page. Did you that Canadian downhill skiers have done very well in Europe this season, despite competing against athletes like Franz Klammer and Ingmar Stenmark, who are supported by their governments to a degree unheard of in Canadian sports? You'd never know it from the Globe.

Shirley Firth, Greg Joy, Steve Podborski, Grant McLaren, Debbie Brill, and a host of others are far more important athletes than any National hockey league player, for the simple reason that what they do, they do on their own, for the love of competition and personal fulfillment, not for big paydays.

Until Canadians start to recognize that sports have a value that goes far beyond dollars, people who play for the joy of it will not get the recognition they deserve.

It's a small problem perhaps, in the scheme of things, but I can't help thinking about it whenever I'm asked about the last Leaf game, whenever it was.

Feir Play

By Creighton Feir

Another old landmark in Haliburton bit the dust last week when the old Lane house across from St. George's Anglican Church was pulled down by bulldozers are wrecking crews to make room for the new Senior Citizen Apartments. Some of our older citizens told us that this was one of the first houses ever built in the village. The Haliburton Fire Department were on hand to burn the material when the house came down.

Just recently in our column we mentioned the fact that if some organization wanted to raise money they should try a Skate-A-Thon. The Haliburton Senior Elementary School must have thought that it was a good idea as there Floor Hockey Team are holding a Skate-A-Thon at the Haliburton Arena on Thursday, March 16th. Members of the Floor Hockey team were around last week seeking pledges to raise money in an effort to send the team to the International Floor Hockey Tournament at Battle Creek, Michigan. They hope to leave on March 24th and stay for four days. We understand that the school Floor Hockey team are very good and we wish them well in the tournament.

In a recent issue of the Lindsay Daily Post we happened to run across Ford Moyne's column "On the Main Street". Ford was recalling the days when the famous Marks Brothers show, which was very popular in the days of Vaudeville played at the Lindsay Fair every year and put on performances at the Academy Theatre in Lindsay. Members of the family were outstanding theatrical performers and many eyes were wet with a mixture of joy and tears of pain - the portrayal of acting parts was so dramatic and intense. Local people will be interested to note that Al Perrin of Haliburton and his brother Jim Perrin were a part of this troupe. Jim Perrin married the clever and always popular Arlie Marks. Al Perrin the former owner of the Golden Slipper put on some shows in Haliburton and I can always remember as a kid getting such a thrill out of the shows that Al put on in the old town Hall at Haliburton.

Those in charge of public skating in Haliburton such as the Recreation Committee and the people who set up the arena schedule should look ahead to next winter and take a tip from the management of the Minden Arena, when they are setting up there arena schedule. A local man was telling us the other day that he was talking to the manager of the Minden Arena and he stated that they have public skating one night a week and on Sunday afternoon. These two dates are set each week and these hours are not changed no matter what happens.

A Teach-In on the Holy Spirit was held at St. George's Anglican Church in Haliburton last Saturday. The leader was the Rev. George Morley of Toronto.

People may be interested to note that the Old Clergy House in Minden is the oldest standing log house in Haliburton County. Built in the spring of 1853 of hand hewn logs. It has been in continuous use up to a few years ago. It is now the home of Stan and Eileen Blears. Built originally as a logging outpost, it was later sold to the Lakefield Lumber Co. This company operated it as a depot store accommodation until August 12th, 1890, when it was sold to Ed Noice for \$300.00. This building became known as the Clergy House when the Incorporated Synod of the Diocese of Toronto bought this building in 1899. This quaint and unique structure is an object of general interest to summer visitors. It is one of the few remaining links between the past and the present.

We don't know how many of you read the Globe and Mail but we were quite interested in his column of Monday, March 6th in which he stated that he had received a letter from George Stephenson, who lives on Drag Lake in the Haliburton Highlands George said that he'd read quite a few wildlife stories about wolves "purporting to show what wonderful animals they are" and had been fairly well convinced on that point, until one recent weekend, when "We were enjoying a walk on Sunday morning. Just as we came to the park area, a snowmobile appeared dragging the remains of a deer behind it. Don Walling and Frank Roberts of Haliburton had been ice fishing and came across this beautiful doe which had been brought down by wolves in the night. The body was still warm. Its stomach had been ripped open and the insides devoured. Very likely it would be carrying a pair of fawns at this time of year. It had been chased out of the swamp and only survived for a distance of about 200 yards on the lake. Except for the insides only part of one hip had been eaten. The men were taking the remains to the game warden in town.

What next? Now they are telling us that ionization-type smoke detectors could present a health hazard. According to a report from Kathy Stagno in the Toronto Star "The ionization detectors emit radioactive particles which are carcinogenic and, in general, an environmental and human health hazard". This problem was to be brought up in the house of commons last week.

We are glad to see that Ron Stackhouse is now back playing hockey for the Pittsburgh Penguins of the National Hockey League. Ron has been out for several weeks with a serious back problem.

The government keeps reminding us to wear those seat belts when we are driving our vehicles. Some people just don't seem to want to take the time to buckle up and the Minden detachment of the Ontario Provincial Police are cracking down on motorists who don't like to buckle up. It pays to wear a seat belt. Just last week a Toronto man died when he was thrown through the windshield of his car. He was not wearing a seat belt. A woman driving the other car escaped with minor injuries. The woman and a passenger in her car were wearing seat belts.

Our postmaster at Haliburton Jim Perrin has been off work the past few weeks after he fell and broke his ankle. We hope that it won't be too much longer before he is back on the job.

The Brotherhood of Anglican Churchmen will hold their monthly communion and breakfast at St. George's Anglican Church this Sunday morning March 19th at 8 a.m. The guest speaker will be Mr. Bill Gliddon of Haliburton.

Report from Queen's Park

by MPP John Eakins

Of course, the big news at Queen's Park this week was the Provincial Budget for 1978/79. Expenditures of \$14.555 billion in the coming fiscal year, and over-all revenues of \$13.5 billion will produce a deficit of \$1.055 billion, compared with last year's \$1.616 billion - always supposing that the Treasurer's forecasts are correct. The increases of expenditure in the area of debt servicing - interest payments already accumulated as well as additional debt this year - are alarming. Net debt has now reached 9.5% of Gross Provincial Product, and 72.1% of annual revenues. Interest payments of \$1.2 billion are now taking 8.5% of the budget - an increase over last year of 15.4% - the largest dollar increase in the budget. Interest charges amount to about \$3 million a day.

OHIP premiums are to increase by \$12 to \$44 monthly for families and by \$6 to \$22 monthly for single subscribers, effective May 1st. That's an increase of 37.5% this year, for a total increase of 100% over the last two years. These increases will be accompanied by expanded free exemptions, as a result of which some 1.8 million Ontarians will pay no OHIP premiums, while another 60,000 will pay 50% premiums. Single people with taxable income of \$2,500 and families with taxable income of \$3,000 or less will pay no premiums, those with taxable income between \$2,500 and \$3,000 (single) and between \$3,000 and \$4,000 (family) will pay 50%.

On a package of 20 cigarettes, tax goes up 2.8 cents, and there is a slight increase on cut tobacco and cigars. As of April 1st, a 24-case of beer will increase to \$8.00 from \$7.85 - wines and spirits will increase by between 15 and 25 cents.

There is a tax-break for the tourism industry - the 7% sales tax on accommodation until December 31st, 1979. Tax on American Plan accommodation is also lifted, but the 10% tax on so-called luxury meals remains.

Last year's youth employment programs are to be continued at a cost of \$78.3 million - an increase of \$12.9 million. The Government has already admitted that there will be approximately 100,000 too few summer jobs to meet the needs of students seeking employment this year, yet job proposals only set a target of 60,000 jobs. Last year, at the peak of the summer, there was a short-fall of 159,000 jobs for students.

The Treasurer has not come forward with even one permanent job creation proposal, although he predicts continuing unemployment at about present levels. Last year, he forecast 89,000 jobs would be created in 1977 - the Conservative Election Charter predicted 100,000. Actual job creation figures shown in the budget are 73,000 - a short-fall of 16,000 jobs against the Treasurer's own '77 budget forecast, of 27,000 against the Premier's Charter. The Treasurer predicted 6.3% unemployment; it now rests at 7%.

In a transparent attempt to obscure this year's deficit, the Treasurer is selling off assets - \$125 million in Ontario Mortgage Corporation mortgages. He is also accelerating the cash flow from corporation taxes by changing the Corporation Tax Act to bring in an additional \$70 million, in a one-time cash flow adjustment.

In other news this week, the Minister of Transportation and Communications has introduced legislation to allow the Government to impose new rules on drivers' licences. A first step has been taken toward requiring photographs on drivers' licences and setting up probationary licences for new drivers, both recommended by the Select Committee of the Legislature on Highway Safety. Probationary licences may not come until next January 1st or later, and photographs, which would be taken only when a driver renewed his licence, may follow that. The Select Committee recommended a two-year probationary licence, during which time action would be taken against a driver at lower levels of demerit points than for a driver with an ordinary licence. The Cabinet considered a one-year probationary licence for all new drivers 18 and older. Drivers under 18 would be on probationary licences until that age. The Minister is not sure which system will be implemented.

Replying to a question from Herb Epp (Liberal - Waterloo-North), the Chairman of the Management Board of Cabinet, has admitted that some 439 civil servants are "red-circled". (A civil servant recently disclosed that he is being paid nearly \$25,000 a year, but being given little work to do.) "Red-circling" occurs when an employee is transferred to another post because his job is redundant. His salary is frozen until the salary level of his new post catches up.

Report from Parliament

By William C. Scott M.P.

Last Wednesday I rose in the House of Commons to speak in support of a point of privilege raised by Douglas Alkenbrack, Member of Parliament for our neighboring riding of Frontenac-Lennox and Addington.

Mr. Alkenbrack had raised a point that I have felt strongly about over the years, and that is the difficulty experienced by back-benchers in getting to ask questions in the House during question period.

I told the Speaker of the House that I had been trying for some time to ask questions that would be of interest not only to my own constituents, but to other Members of Parliament and people across the country.

I also told the Speaker that I have noticed on many occasions that many backbenchers have become discouraged when they have repeatedly tried to ask a question on behalf of their constituents. It can be very frustrating, especially when you feel that a pertinent question raised at the right moment can move the government to correct an injustice.

When I sat down the Minister of National Revenue, Joe Guay, rose and told the Speaker that he heartily agreed with my remarks. I was agreeably surprised at the minister's statement on behalf of my complaint.

The main reason why I spoke on the point of privilege is that I have been trying for some months to pin down the Minister responsible for the Department of Regional Economic Expansion (DREE) and get him to sit down with me and try to work out some way that Victoria-Haliburton can take advantage of the provisions of the regional economic expansion program.

DREE makes grants to industries that agree to locate in regions of high unemployment, and to existing firms in designated areas that want to expand their facilities and create new jobs.

In order for any part of Victoria-Haliburton, such as the Lindsay area or the Haliburton region, to qualify for these grants, the government must designate the region as one that is eligible under the rules of the program.

On many occasions I have asked the Minister responsible for DREE if he would consider designating our area. So far he has refused to give me a firm commitment, saying merely that he would take it under advisement.

Feeling that he had had plenty of time to make a decision on the matter, I wrote the minister on February 8th and asked him if he would agree to meet with me personally and discuss the issue. Up

to this past week he has not answered my letter. I have never considered that Victoria-Haliburton is entitled to any more than any other area or region in the country, but I will not accept any less for our riding than is being given to other ridings.

Earlier in the day The Right Honourable John Diefenbaker, who has sat in Parliament longer than any other Canadian, raised a point of privilege dealing with the failure of members to get the House to debate a motion under Standing Order 43. Under this order, a member may rise in the House and move that the House be adjourned for the purpose of debating a matter of urgent and pressing necessity. However, the member must get the unanimous consent of the House to debate

Cont'd, page 14

MPP announces student program

John Eakins, MPP (Victoria-Haliburton) said he hopes students in the Victoria-Haliburton area will take a look at the Venture Capital Program, which creates summer jobs for Ontario students.

Under the Ministry of Colleges and Universities, students who want to run their own summer businesses to finance their education, will get extra help again this year from Venture Capital, an Experience '78 program sponsored jointly by Ontario business and the provincial government.

Venture Capital provides interest-free loans to a maximum of \$1,000 to encourage students to set up their own summer businesses. The loans give enterprising individuals the opportunity to finance their education while acquiring business experience first hand.

The Ministry sponsors and administers this program in co-operation with the Ontario Chamber of Commerce and the Royal Bank.

Most of last year's ventures were considered very profitable for their student operators.

Students seeking to launch a Venture Capital project work closely with members of the Ontario Chamber of Commerce. Local participating chambers screen applications, suggest improvements, and approve those which contain the fundamental ingredients of success. When the student's proposal is accepted, he or she must agree to follow certain standard business procedures, make regular reports and repay the loan within a specified period of time.

Students wishing further information or application forms should contact: Lori Mark, Program Manager, Venture Capital '78, Ministry of Colleges and Universities, 6th Floor, Mowat Block, Queen's Park, Toronto, Ont. M7A 1B9. Telephone (416) 965-4530.

Mr. Eakins also said that students may, if they wish, seek information at his constituency office, 6 William St. North, Lindsay, Ont. K9V 4A1. Telephone (705) 324-6654.

Cont'd, page 3

From the Chamber

PROVINCIAL BUDGET BOOSTS TOURISM

It was certainly welcome news to all members of the tourist industry that as a result of the March 7 Ontario Budget there is at least a temporary exemption for transient accommodation charges throughout Ontario. In other words effective March 8, 1978 and through to December 31, 1979 there is no sales tax to be charged on accommodation provided at motels, resorts, cabins or housekeeping cottages. This, along with the decreased value of the Canadian dollar, should elp to once again make it attractive for our American friends to visit us this year. This was a proposal which the Ontario Chamber pressed for in its' pre-Budget submission to Mr. McKeough.

OTHER BUDGET OBSERVATIONS

The Ontario Chamber also noted "Governments rejection of public spending as a cure all for economic problems should not be regarded as indifference, but received as a timely change in fiscal policy department." It brings to mind something we have heard in the past; that a government that is capable of providing us with all that we ask for would have to be powerful enough to take away all the freedoms we desire. We can't have it both ways.

The overwhelming increase in O.H.I.P. payments was a tough one to swallow. For those in Queen's Park it seems reasonable to assume that this payment is something that is simply buried in most people's paycheck deductions, and is often paid for in a large part or entirely by the company they work for. Certainly in Haliburton County this is not true, as a large percentage of our work force pays their O.H.I.P. premium direct entirely out of their own pocket. This means that the hard working family man who has in the past been required to come up with \$96.00 every three months for his O.H.I.P. payment will now have to add another \$36.00 to each of those payments. In this regard the Ontario Chamber said "Soaring health costs are, in a large measure, influenced by a pattern of over usage and without a deterrent apparatus, the provinces' cost burden will continue to increase." We would have to agree that the very real probabilities are that faced with such a drastic increase in cost, the average individual is going to be trying to figure out how to use his coverage more in order to get his moneys worth.

DOWNTOWN RENEWAL

Last weeks meeting in Haliburton of interested business people was considered quite successful since there was a turnout of more than 40 individuals all with a very positive outlook as to what could and should be done to improve their business community. Any that were there to find out what kind of hand outs were available from governments for this project would have been disappointed since there are none offered. The meeting was informed that funds initially set up for a downtown revitalization program have now been virtually exhausted and the Ministry of Housing is considered a new approach will could possibly involve some form of interest free loan.

Ontario tax credit system needs explaining

John Eakins, MPP (Victoria-Haliburton) said that many people have asked for clarification of the Ontario Tax Credit system. With many people filing their federal returns, it is important to realize how the Ontario Credits can affect you. Mr. Eakins said, "All Ontario residents who are 16 or over may be eligible to claim Ontario Tax Credits. Even if you have little or no taxable income and would not ordinarily file a federal income tax return, you may claim Ontario Tax Credits."

What are the credits? Property tax credit: Claim this credit if you are a homeowner, tenant or roomer. Pensioner tax credit: claim this credit if you are 65 or older.

For married couples, only the spouse with the higher taxable income may claim the Property and Pensioner Tax Credits.

Sales tax credits: claim this credit if you are not claimed as a dependant. Political contribution tax credit: claim this credit if you made a contribution to a registered Ontario constituency association, party, or a candidate in the 1977 Ontario election.

How much can you claim?

The amount you can claim is based on your taxable income and the property taxes or rent you have paid. For example, you may be eligible to receive from the Ontario government through the income tax system: \$375 if you are a single pensioner receiving the Old Age Pension, Supplement and gains and paid \$500 in property taxes last year. \$195 if you are a family of four with a total income of \$10,000 and a property tax bill of \$500.

Your Ontario Credit form is in your federal income tax package. File, even if you have no taxable income. Mr. Eakins said.

Bill Smiley

TALES OF YESTERYEAR

My involvement with the RCAF Association brings back a lot of memories, some a bit grim, some pretty hilarious.

As the old mind's eye wandered back, something hit me like a cold douche. Not that I've ever taken a cold douche.

Why were we so keen to get killed? In this age of drop-outs, draft dodgers and deserters, it seems incredible that thousands of young Canadian males, back in the Forties, were almost frantic to get into the air force, into air crew, and into a squadron, where the chances were excellent they'd be dead within a couple of months.

From the point of view of common sense, reason, logic, it was not any brighter than the Children's Crusade of the

Middle Ages.

Why? Certainly we had no death wish. We had no deep urge to imitate ourselves in the breath of the war dragon. We weren't even running to the battlefields to protect our homes, our wives and children. Most of us were in school, or just recently out, and didn't have none of them there things.

Oh, we knew we had to "Stop that bawstard Hitler!" as Churchill once told us on an airfield in Normandy. We knew rather vaguely that we were defending democracy and unemployment against the monsters of totalitarianism and full employment, although it was a bit puzzling that totalitarian Russia was on our side.

We knew joining up was the thing to do, that most of our friends were doing it, that a fellow looked pretty fine in a uniform, that the girls were

impressed and the hitch-hiking easier.

But why the air-force? And why air crew, where the dice were loaded so heavily?

Did we avoid the army because we didn't want to be exposed to the rude and licentious soldiery and get all dirty and grimy in action? Or the navy because we preferred a fiery grave to a watery.

I just don't know, but most of my friends, and most of their friends, chose the air force, and were dead keen on getting into air crew.

Within a bare few years, most of them were a lot less keen, and many were a lot more dead.

As I recall, it was a real downer for those who failed the tough medical test for air crew. Once chosen, you were filled with despair if you were going for pilot and had to settle for bomb-aimer, just because you were a little

cross-eyed.

Once in training, it was a shattering experience to be "washed out" of air crew merely because you had badly bent up one of His Majesty's aircraft by trying to land at 40 feet up, or had wound up 300 miles off course on a cross-country training flight. It was devastating if you wanted to be a fighter pilot and were shipped off to lumbering old bombers.

Have friends who still bear a deep scar on the psyche because they were made flying instructors and spent the rest of the war in Canada. This despite the fact they were chosen as instructors because they were far better pilots than the rest of us.

This despite the fact that many of the pilots they trained were dead, dead, in no time. None of this was any consolation. They still feel they missed something irrecoverable.

Well I know what they missed. They missed the stupidity of senior officers who didn't know whether they were punched or bored. They

COUNTY ECHO SPORTS

Slapshot by Bill Davis

Well the hockey season has come to an end for all our local O.M.H.A. teams. The Pee Wees by Cannington, the Bantams and Midgets won the league championships, but were defeated in five games by Newcastle.

On the other hand our tri-county teams are still right in the thick of things with a strong possibility of at least a couple of championships. The Pee Wees hold a one game lead in a series with Minden and the Midgets have advanced to the finals by defeating Ops last week. Good luck to you guys.

In the county town things are a little different. The Minden Bantams and Juveniles have advanced to the all Ontario semi finals, and at the time of writing the Bantams have a two game lead on Creemore and the Juveniles are deadlocked at one with Havelock. I saw the first two games of the Juvenile series, and it is my opinion that Minden can win this series if they stick to hockey.

Up front Minden are about par with Havelock, but in the nets Minden's Mike Bird is by far the superior. In Sunday's game in Havelock Bird played probably his best game ever as he shut the door time and time again on a frustrated Havelock team.

Back to the local scene we have the Travelway's Huskies in league championship action. And they are trialing Lakefield by one game after the free wheeling series opener in Lakefield after dropping a 10-8 decision. It appears this series will go six or seven games.

If you get the Toronto papers and read the sports you would think the Toronto Blue Jays were in a race for a league pennant by the amount of coverage they receive. They have opened spring training in Dunedin, Florida, with still a few players not signed to new contracts.

There is a good possibility that Wilberforce may join the O.M.H.A. for the 78-79 season. Mike Oram had indicated that they wish to sit down with officials from the surrounding area and discuss the possibility of maybe forming a new northern league. I hope that responsible people from all parts of the county sit down at this meeting and discuss the aspect of travelling. If there are any differences with the people involved it is the wish of this writer that they act on behalf of the minor hockey players with all intent and honesty.

While on the subject of Wilberforce, this writer would like to welcome you the Echo sports family. I have had the opportunity to meet some of that hard working executive and would like to commend you on a fine job that was done not only by yourselves but all the people who participated in making the dream of a new arena a reality and a show piece.

P.S. This department has accumulated a large number of score sheets over the past month and we request that the respective officials drop by The Echo and pick them up.

"Just Remember Everyone Can't Play Sports, But Everyone can be a Sport"

Atoms journey to New York

The Haliburton O.M.H.A. atom team will be going south of the border on March 31 to participate in a three day tourney in Amherst New York.

The New York team were recent winners of the Lake Kashagawigamog atom tourney held in Haliburton. The local atoms would like to

thank the following businesses for making this trip possible. Kinsmen Club, Red and White, Stedmans, Tee Pee Construction, Minor hockey, Chamber of Commerce, Mike's Milk, Deer Lodge, Ed LaPorte Equipment Manager, and their sponsor Lake Kashagawigamog Tourist Association.

Maple Lake Bowling

Dan's Dynamoes continued their winning ways by blasting Fred's Foxes for seven big ones and taking over the lead for this series. Dan's now have 37, Fred's 31, Ron's Rollers 29, Strikers 18, Audreys Angels 17 and Lynn's Loafers 15.

Wes Stata showed us he's about ready for the Carling O'Keefe Open with 813 (322, 263); Ronnie Robinson was right behind with 802 (303, 296); Fred Cox 731 (290, 254);

Ab Cox 685 (282, 218); Walt Ackersblade 679 (239, 233); Rick Harding 668 (254, 252); Ed Cox 645 (243, 216); Ron Robinson 635 (246, 220); Deb Harding 622 (252); Marlene Cook 626 (257, 214); Marnie Robinson 620 (256, 203); Dorothy Robinson 621 (245, 216); Flo Henderson 615 (214, 203).

High single games bowled by Audrey Fountain 252; Wendy Kirkpatrick 246; Grace Downy 225; Dick Downey and Brenda Cook 210; Fran Woods 205.

Wilberforce

meet OMHA

The Wilberforce minor hockey executive met with representatives of the O.M.H.A. last Saturday, to discuss the possibility of Wilberforce joining that association for the coming season.

Mike Oram president of Wilberforce minor hockey told the Echo that many avenues for Wilberforce's participation were discussed, and the area of travelling was their only concern. Oram stated that Wilberforce would be sitting down with area executives in the near future to discuss the situation.

Oram made it clear that a decision to join or not would be made at a later date.

Midgets to the finals

The Haliburton tri county midgets have advanced to the league finals as they ousted Ops in three straight games and now meet Lindsay.

Last Wednesday at the Dysart arena the local team skated to a 5-2 win in a game that appeared as a circus. The Ops team might as well stayed at home from the tactics they displayed as at every opportunity they punched, high sticked, charged, and in general made fools of themselves. This writer took in the game and would like to commend the Haliburton team on the attitude they displayed despite the antics of the Ops team.

Haliburton managed to score five goals in the game and were led once again by Chris Roberts with two, Terry Robinson with two and Brian Lloyd added a single.

Pee Wees are game away

Haliburton tri county pee wees are one game away from eliminating their rivals from Minden by virtue of two 3-1 wins.

Last Thursday evening in Minden, Haliburton fired one in the first and two in the third to take away a 3-1 victory.

Haliburton scorers were Brad Chambers, Marla McNaul, and Dave Giles.

In Minden Kevin Forbes gave Minden a brief one goal lead but Haliburton came back to fire three unanswered goals to record their second three-one victory. Brad Chambers, Marla McNaul and Carl Rowbottom scored for Haliburton.

This game of the series goes tonight at the Dysart arena, and Haliburton could wrap up the series with a win.

Midgets to host Hamilton

The Beaconbrook midgets will be hosting a midget team from Hamilton on March 24, 25 and 26.

Two and possibly three games will be played at the Dysart arena with the Hamilton legion midget club who like our local team find themselves out of play offs. Haliburton met this team last year in Temiskaming, Que. and earlier this year Hamilton contacted Haliburton.

Our local team will be traveling back to the steel city in the near future.

Mayor Lorne Smart of Napanee present the Smart Florist Trophy to these Haliburton Curlers, winners of the Highland Lassie Bouspiel at the Napanee Curling Club on Saturday, February 25.

Members of the team are from left to right: Phyllis Woodcock, skip, Kit Koehler, vice-skip, Sheila Elston, second, and Susan Woodcock, lead.

Huskies drop opener in penalty filled game

The Haliburton Travelways Huskies dropped the first game of the league finals to Lakefield 10-8 in a game that was marred with penalties.

A total of 111 minutes in penalties were recorded plus six fighting majors and as many game misconducts. Both teams took time out from the fisticuffs to score a total of 18 goals.

In the first period it was evident that the Huskies were suffering the long wait for this series as they were outscored 4-1. Three of these goals were on the power play. The lone Haliburton goal was scored in the power play at the 7:00 minute mark. Tom Curry from Joe Roberts and Barry Shaw.

In the second period Haliburton got back on track and at 5:26 Curry got his second of the night from Shaw. This narrowed the Lakefield lead to 4-2. At 6:42 the Lakefield captain, Paul Graham gave them the three goal lead back, but at 7:42 Roberts from Bain and Shaw narrowed it once again to two. Twenty two seconds later Randy Barras from Wooten cut the lead to one goal. Again at 8:18 Graham from Smith and Rosborough opened up a two goal lead for Lakefield. Haliburton came back on the power play at 19:19 Tim Oram from Roberts and Shaw. After two periods Lakefield 6 Haliburton 5. Two players were banished from the game when they were involved in fights. Haliburton lost Jim Thompson and Andy Wasson for Lakefield with fighting majors plus game misconducts.

The Huskies came out flying and tied the game at the 1:04 mark when Tim Oram fired his second of the game and the Huskies were right back in the game. At the 4:30 mark the Huskies took the lead for the first time in the game on a power play goal off the stick of Larry Stinson from Roberts and Scheffee.

The Huskie lead was short lived and at 5:53 Lakefield's Steve Spencer scored to even the score once again. Lakefield came right back at 12:26 to once again take the lead

and at 14:47 moved into a two goal lead. Huskies cut the lead to one at the 17:20 mark when Mike Scheffee scored from Wooten and Curry, but Lakefield ended Haliburton's hope when they opened up that two goal lead once again at 18:31 when Team captain Paul Graham scored his third of the night and Lakefield skated away with a 10-8 victory and a one game lead in the series.

The next game of the series will be played at the Dysart arena this Friday evening at 8:30 p.m. when the local Huskies will be trying to get back on track and even the series at one each.

Minden Juveniles even their

The Minden Vasey juveniles have evened their all Ontario semi final series on the strength of a 5-2 win in Havelock on Sunday.

After dropping a 8-6 verdict in Minden on Friday evening, both teams played a rather chippy style of hockey. The Havelock team, which is a bigger team, tried to use their weight, but Minden was not to be intimidated.

Tied 6-6 with four minutes remaining, Minden picked up a penalty which proved to be costly as the visitors scored to go ahead, and added another marker in the last minute.

On Sunday in Havelock an injury ridden Minden team showed what they were made of as they scored two in the second and three in the third on route to a 5-2 victory. In the first period it appeared

that a donnybrook would take place at any time as the officials seemed awed at the type of hockey and let everything go, and at the end of the period fights erupted between the time keepers and Minden players.

Once again the Havelock goalie appeared very weak in goal as Minden scored three goals that he should have had. On the other hand Mike Bird in the Minden nets played probably his best game ever as he shut the door time and time again as he covered his rebounds and cut down the angles as a frustrated Havelock team shook their heads.

Next game of the series is this Friday night in Minden game with game time at 8 p.m.

Along the Trails by Roy Bates

MARCH TRAILS

The warm sun of mid-day has begun to eat away the ice and packed snow from ploughed sideroads. This means that some groomed trails are not as readily accessible from the villages. In most cases, however, a little re-routing by way of the lakes will get you there. Hopefully, for another year, there will be more off-road feeder trails to the groomed system.

One that would be very desirable for March snowmobiling is a dry land link from Haliburton to the Gooderham Trail (No. 16) which is now reached by riding onto the Buckhorn Road from Mountain Street. It is the hope of the Haliburton County Snowmobile Association that a route can be established across private lands from the vicinity of Dover's Spring. By bridging Drag River this trail would then connect into Trail 12 East of Haliburton Village.

For the present, the Gooderham Trail can be reached without road-running by riding down Kashagawigamog to the Hunter's Horn Trail, (no. 14) turning onto the Twin Pines Trail (No. 9) at Porcupine Junction, and then up Koshlong Lake to Bark Bay. The trail is accessible also from the public boat launching ramp in a narrow bay on the North shore just opposite Bark Bay Narrows on Koshlong. Minden snowmobilers wishing to bypass the roads at Gelett would turn onto South Lake and follow the Tri-Trail to Trail 14. The entrance to this trail is located directly across the lake from Haliburton Air Services. The parked seaplanes make an excellent landmark. While this should be as clear as duck soup, you'll be wise to check your map.

The Peterson Trail (No. 1) can be reached easily by following Trail 12 from Head Lake to Spruce Lake, crossing over to Drag Lake, then running North on the Tri-Trail to the junction near Richies. There are no road links on the Peterson from the 30th Line East.

The Trail Fee and Property Owners

A phone call, one morning recently, pointed out the lack of understanding of the trail user fee as proposed by the Ontario Trails Council and supported by trail building snowmobile clubs. This land-owner was concerned that he might find himself paying for the privilege of snowmobiling on his own land!

It is uncertain how each snowmobile club would handle this situation, but, if a trail user fee is adopted - and we believe it will be - there are two very practical methods. Each land-owner who permits a trail on his property, and who is himself a snowmobiler, could be given an honorary membership in the club. The alternative would be a season pass. In either case, the recipient would be assured free travel on the club's trail network and very likely, all public trails in the province.

In the case of trappers, and others using snowmobiles in the course of their work, season passes would be issued. These would entitle the holder to use specified portions of the trail system as determined by his work area. The worker's pass would cover the individual while the land-owners pass would cover the family.

Snowmobile club directors will be the first to concede that good trail facilities are entirely dependent on the good auspices of property owners. Be assured that no club will institute any program which might result in the alienation of these valued friends.

The Motorized Snow Vehicles Act, section 19, reads: "An occupier of land owes no duty of care toward a person who is driving or riding on a motorized snow vehicle or being towed by a motorized snow vehicle upon the land and who is a trespasser or licensee except the duty to not create a danger with the deliberate intent of doing harm or damage to the trespasser or licensee or do a wilful act with reckless disregard of the presence of the trespasser or licensee."

This is generally referred to as the landowner relief clause of The Motorized Snow Vehicles Act. Very simply this means that the normal duty of care owed to the general public is not owed to snowmobilers. Furthermore, where a snowmobile trail is established by landowner agreement, and funded in whole or in part, the landowner is additionally protected by mandatory liability insurance carried by the club. Snowmobilers are as yet the only members of the general public who have provided such landowner relief by legislation.

Trail Conditions

March 13, 1978

- Most Trails to be groomed this week
- Lakes are excellent with up to 16" of ice reported
- Caution should be exercised as spring conditions are now in effect.
- Grooming operations will finish as of March 17
- This is the final trail conditions report for this season.

BECAUSE OF THE HCSA GROOMED TRAILS HAPPENED THIS WINTER!

Wilberforce holds Maple Syrup festival March 25

A demonstration on the production of Maple Syrup will be held in Wilberforce, on Saturday, March 25th, 1978.

A sugar shack will be built in the park beside the Lloyd W. Watson Memorial Centre and men will be available to explain the Maple Syrup operations.

Pancakes and sausages will be served from 9:00 a.m. to 3:00 p.m. in the Centre...

all you can eat for \$2.50.

Maple Syrup will be available for sale along with Maple Syrup candy.

It is hoped that a Sugar Bush tour can also be arranged, weather permitting.

To add to the festivities a flea market will be held and the tables are going fast for this interesting activity. Anyone wishing a table to sell their handcrafts, bake goods

or white elephant articles, would be advised to do so, as soon as possible. The tables are \$5.00 each, payable at the Municipal Office.

To continue the festival spirit, a dance will be held at the Centre on the Saturday evening.

Come join in the fun and fellowship, and your presence will help build our new arena.

Legion News

The regular monthly meeting of Br. 129 Royal Canadian Legion was held in the Hall on Thursday, March 2, 1978. Three new members were present for initiation, one ordinary and two associates. One ordinary member was re-instated.

Comrade Don Johnston gave a report on the Band. There are several engagements upcoming for the spring and summer and the band will be applying for a Wintario Grant shortly. They plan to be in attendance at the official opening of the Monmouth Arena.

At a special meeting of the executive council in February Murray Fearney was appointed Carnival Chairman and Jack McDonald will be Car Draw Chairman. A Ford Bronco will be the car for this year's draw and tickets will soon be on sale. It was suggested that some incentive be provided for ticket sellers this year and consequently anyone selling fifty tickets will receive \$25.00 and 50 cent will be paid for each ticket sold thereafter.

1978 marks the 50th Anniversary of Br. 129 and we plan to make the carnival parade something special this year. There will be more on this at a later date. On Saturday, March 18, there will be a Ham Roll in the clubroom in the afternoon and lunch will be served. A St. Patrick's Day will be held in the evening. It is hoped that members and their families will take advantage of this, our first dance of the year and come out and make it a success. Remember comrades, we have something to work for now and everyone is expected to do their share, even if it is only supporting the fund raising events.

The branch will be catering to the Lions Club Founders Night dinner on May 6, and also to the Midlands Regiment re-union on May 20. We shall require a lot of help for these dinners so please volunteer your services.

Tenders have been put out for the new addition to our premises and we are hopeful that construction will begin early in the spring.

The Zone rally will be held in Lindsay, Br. 67, on Sunday April 2, 1978 and the District "E" convention is to be held at Br. 99 Belleville, April 15-16. The president will be going to the Dominion Convention in Edmonton June 11-15.

Curling

by Tom Stinson

Haliburton Rotary wins 1st Jack Robertson

Dave Gray, Pres. of Haliburton Rotary Club skipped his rink to win the 1st Annual Jack Robertson Memorial 'Spiel' last Wednesday, taking high points against 15 other local service club rinks. Dave had John Wilson, Russel Woodcock and Mike Stinson with him. Keen competition featured the 3 game day, with Paul Featherstone's Fenelon rink a close runner-up and Ross Campbell's Lindsay 4 taking third with the high points for 1 game winner. Murray Kuno's rink of Bob McNaul, Rick Elstone and Cliff Dawson were next in line - and Joe Iles rink were presented with a special award, we believe for "endurance". It was a great day and from the many favorable comments we know all will be back for a try at the handsome trophy next year. Rinks were entered from Rotary, Kinsmen, Lions, Legion and Masonic clubs. A very fitting memorial to the late Jack Robertson, one of our original Haliburton curlers - and a great supporter of our club over the past 35 years.

Last Thursday our club hosted 28 senior curlers from the Minden Monday afternoon league. Tom Hurtt, Herb Gill and Ed Pettinger were the winning skips. This visit is becoming a most pleasant annual event. We have hopes of building a Haliburton Sr. mens group to give these boys some competition. After we left the ice the high school youngsters took over for their weekly schedule. A few suggestions from behind the glass leads us to think we could provide a very interesting afternoons curling. Juniors against we seniors, or call it "energy" vs "experience".

Last Sunday the OCA dist. tankard and Gov-Generals were played at Peterborough curling club and Peterborough golf. Bob Colliver and Murray Kuno skipped 2 rinks in the Tankard and pres. Dave Chatfield and Dick MacLean skipped the double entry in the Gov-Generals. Both sets won their first games, but finished as semi-finalists. A fine effort against top competition from Lindsay, Peterborough and Beaverton rinks.

Four Haliburton rinks and teams from Bowmanville, Sutton, Cannington, Minden, Fenelon Falls, Bancroft and Whitby competed in the One-day Ladies Bonspiel on Saturday, March 11. It was a very successful day as a result of an enthusiastic group of women who organized the Spiel and

The winning rink in the first annual Jack Robertson Memorial Bonspiel held last Wednesday at the Haliburton Curling Club was the Rotary Rink skipped by Dave Gray. The Bonspiel was open to

all service clubs in the area. From left are Russell Woodcock, Dave Gray (skip) John Wilson and Mike Stinson.

valuable support from many club members. Good curling was not the only highlight of the day. A sumptuous Spaghetti dinner, served by the men of the club (special thanks to Rick Elstone as Head Chef) and a very entertaining talent show were added features. The evening concluded with presentations of prizes as follows:

First Place: Diane Parliament's rink from Cannington were presented with the CKCO Trophy donated through Dave Chatfield.
Second Place: Joan Nicholson's rink from Whitby.
Third Place: Penny Obce's rink from Minden.
Fourth Place: Linda Beachli's rink from Haliburton.
Fifth Place: Jean Colliver's rink from Haliburton.
Sixth Place: Mary Kellett's rink from Sutton.

The Ladies Curling Club would like to express sincere appreciation to the following local businesses who donated prizes: J. Beachli Const., Black's Hardware, Brohm's Variety Store, Dawson

Insurance, Eagle Lake Store, G. Elstone Const., Extencare, Haliburton Lumber, Pinestone Inn and Country Club, Red and White Foodstores, Silver Eagle Cottages and Stedman's Department Stores.

Coboconk News

by Sheila Lake

If there is someone looking for a little summer job for four weeks, and is qualified, the local Water Safety Program, held in our Lions Community Park needs a swimming instructor for four weeks beginning July 3. The Red Cross Safety approved program is for four years old children and up. Contact Helen Jones or Charlene Cross if you are interested.

The residents of North Bay Drive, on Balsam Lake have been very concerned for some time over a proposed 160 unit condominium to be built on approximately 112 acres of land between the Bill Downes and Don Wires farms on the north side of North Bay Drive. At a general meeting held some time ago at St. Thomas Church Mr. Percy Hughes, President of Balsam Lake Association representatives from Bexley township, representatives from Long Point, Birch Point, Popular Grove and other associations were present. Our M.P.P. and M.P. were invited but unable to attend the meeting but expressed much concern over the matter. Paramount Developments wish to build the units, which would be called

Eklin Park. There is about 700 feet frontage on Balsam Lake and the site would house over 300 persons. This corporation has a beautiful 51 page book, really an environmental study put out by Hough-Stansbury Co. on the proposed development. Members of Bexley township council have a copy as well as some of the North Bay Drive Association. The property has been re-zoned from agricultural to resort, on approval from Bexley council. Residents in the area are very concerned about water pollution since the area is heavily populated now and is right near Balsam Lake Provincial Park and boat traffic is very heavy.

The Balsam Lake residents of North Bay Drive Association offered to buy the property, originally the old Carson farm, from Paramount Developments but the offer was refused. As things stand, both sides are fighting for their cause. There are a number of Government levels to overcome before Eklin Park can become a reality. Apparently, Bexley township has a condominium act, which could slow things down, and the longer the

delay the happier North Bay Drive Association are, since they want Balsam Lake to be a clean, healthy lake to enjoy, not a cess pool, because of over population and possible abuse. For sometime the Association fought to have speed limit reduced and now with metric, the limit is 37 1/2 miles per hour rather than 40.

Congratulations to Mary Faulkner, who won the 12" black and white TV in the IGA draw.

Rick Hughes came home this week from hospital. He broke his ankle in a hockey game about two weeks ago.

Sympathy of the community goes out to Gladys Routley in the death of her sister, Evelyn, Mrs. Boyce, at Sudbury last week. Our sympathy to Andy Boyce in the passing of a dear wife, Mr. and Mrs. Boyce were both raised near Coboconk and Norland and maintain a Norland home as well as the Sudbury home.

Mrs. J. Brodamer of Pt. Hoover and granddaughters Jackie Graham of Lindsay and Chris Switzer visited Mrs. Cora Lake and Mr. and Mrs. Tom Rutter last week. Congratulations to Sanford Richman who celebrated his

"over 80" birthday last week. Congratulations to Bob and Jean Callan on their 38th wedding anniversary on March 9.

Sympathy goes out to the relatives of the late Norman Newman, who dies at Bowmanville late Monday. Mr. Newman lived in the area all his life and was a farmer until advanced age and poor health forced him to retire.

As I write this, I've just been interrupted by a long distance call from Green Bay, Wisconsin. I have a pen-pal, who is an Avon collector and several times a year she phones me to order something we have in Canada, that the American rep's do not have. She herself is an Avon rep. there and we always have quite a chat, even though we have not, as yet, met! She tells me it is up over 50 degrees in Green Bay this morning and we have enjoyed a visit via the magic of telephone this morning. A great way to communicate!

Mrs. Jack Pearce and daughters, Mrs. Jean Barkwell, Mrs. Alma Blair, Mrs. Beryl Morrison, and Mrs. Lois Taylor are all on a trip to the sunny south.

Mrs. Ann Rutter and daughter, Dawn are home after a month in Florida.

Rev. and Mrs. B. Cross were business visitors to Montreal for a few days last week.

our nation the richer. Fortunately we are not living in the days when the husband is held responsible for his wife's follies, like the time the early R.C.M.P.'s arrested a man because his wife was countering. He got seven years, the wife went free. They were separated at the time of this misdemeanor so she had to be doing something to make a living.

One of the problems and extravagances in Canada is the becoming habit of the liberals who happen to be in power to periodically flaunt themselves in various regions for the purpose of promoting liberalism and therefore their own power but in the guise of government business at \$50 million per in a time of economic crisis. It sure is nasty politics and very difficult to deal with.

Our horticulture is still low ebb, because this year we are again starting from scratch. We have some seedlings up and soon ready for transplant. It should be a very

Some of our local young people are busy with rehearsals for the musical "Anne of Green Gables" that is being performed at the Fenelon Falls Secondary School on Tuesday and Wednesday evenings, March 14 and 15. Laurie, daughter of Gerald and Joyce Bartley is Anne's best friend in the play, while Connie, daughter of Bob and Irene Brohm is in the band that is an important part of a musical and Dale, daughter of Jim and Betty Davey is helping backstage with make-up. The Fenelon Falls students always present an excellent musical play every two years and I'm sure that this year will be no exception.

Our Norland Hockey team that has recently been in a slump, seem to come alive at their last game against Kimmount and won 8 to 3. The team won the best two out of three games in the first series of the play-offs and will be playing against the Chalk Dusters (Haliburton High School Teachers) in the best of five games series. The winners will then play the winners of the Hydro versus Natural Resources competition. The Norland hockey players compete every Sunday at noon in the Minden arena and would very much appreciate support from local fans. Go team go!

Unfortunately, my mention in last week's column of sending cards to Mrs. Andy Boyce was too late, because Evelyn passed away on March 6. A large number of her friends and family attended the service for her in Norland United Church on Thursday, March 10 and afterwards the

interesting exercise ahead. We are all anxious to get outside in this nice sunshine we have been having. The bulk of our potting soil and pots are in a neat heap beside the new fence inaccessible until most of the snow has melted on account of about 50 metres distance of soft wet snow to wade through to get to it. It will be disappointing if we have a nasty turn in the weather before we can reach these supplies. We have a very nice oak seedling grown from an acorn a gift from the Royal Botanical Gardens ready to plant as soon as the soil permits.

Norland Notebook

by Barbara Maunder

ladies of the church served refreshments.

Another longtime Norland area resident, Mr. Norman Newman of Hilton Point Road will be missed by many with his passing on March 7. Mr. Newman had been in ill health and had not been able to look after his farm for sometime. The sympathy of the community is extended to the families of these two people.

At the Tuesday meeting of the Victoria County Festival of the arts further plans for the Coboconk area of the festival were discussed. Mr. Fred Hill, Vice-president of the New Horizons on the move club, joined the group and will assist Mrs. Gertie Crichton with co-ordinating various programs during the festival. At 7:30 on Thursday, May 25 as a preliminary introduction, the Burnt River School will enact a musical called "Pink Bread" at the hall in Burnt River to which everyone is invited an inter denominational church service is planned for Sunday afternoon, May 28, while on Monday and Tuesday (May 29 and 30) afternoons and evenings, arts and handicrafts will be displayed and demonstrated in the lions hall. The Islington United Church youth choir will sing on Monday afternoon and plans are under way to have Sylvia Tyson perform during the afternoon on Tuesday. The happy Wanderers choir will have a lively two hour show on Wednesday

lines to the club re. their charter night festivities on Saturday, May 6.

Anne Patullo, Denise Gray, Karin Gilmour and Melody Nicholls, all pupils of Norland Public School competed with pupils of Burnt River and Coboconk schools on Tuesday, March 7 in the finals of the public speaking contest that was held in the Legion

Hall, Coboconk. Our congratulations to these girls in being chosen to represent Norland at this competition.

The school winter break begins on Friday, March 17 and because easter is early and near the end of March, pupils will enjoy a longer holiday than usual with school not resuming until Tuesday, March 28.

News from Extendicare

by Dr. O.W. Anderson

Monday afternoon there were three movies, the first showed the curious problems encountered in Britain by "unwanted children" when they seem to be some rather outmoded laws that for some reason are not removed. The second showed the trapping of beaver with the latest most humane trap yet devised, that kills the creature instantly. Further shows the skinning that must be done in a certain manner or it leads to flaws that faults it when it comes to auction. In the third, a woman victim of cerebral palsy in childhood leaves her crippled physically, and apparently mentally, by great determination by her, her parents and her doctors, manages to go through the education system to a Ph.D. degree. It would appear that authorities when faced with an apparently hopeless cripple will

revise their thinking. Tuesday morning we were saddened by the news of the passing of Mrs. Lillie Robertson. She was quite a "land mark" among us and will be missed by us and her considerable family.

As usual our session at Bingo was well attended, but has been showing a diminishing profit to the caller. Jake has been calling up to a couple of weeks ago when Ray Smith took over. Ray is quite a dominant factor among us being the projectionist for our Monday movies, a job he does very well.

Wednesday afternoon a few of us attended a two-hour instruction at the School of Fine Arts, Haliburton by Alfred W. Prescod of the Royal Botanical Gardens Hamilton. This dealt with various aspects of caring for either foliage plants or the flowering ones. It is to be hoped that as a result we will have an improvement in the growing of plants in the Haliburton area. While we were away the ladies here were working making scratch pad and pencil or pen holders by laminating different colored vinyl material. These should be a useful gadget to have in the kitchen and if we keep on we will all have the kitchens furnished in this area.

We have a new resident to welcome, Mrs. Gladys Ro-

meyn, Mrs. Pat Burk's mother. Our ladies will soon make her acquaintance.

Thursday found us given a new activity in craft, mod podging pictorial prints on colored bottles. It is a good way of making a pin up or mod podge. Now you will know what to do with a print of your girl friend that she may give you.

Friday was our devotion period with Rev. Trevor Denby as our spiritual leader and a surprise pianist Mrs. Vera Leonard. Nurse specializing Mrs. Gladys Romeyn, the theme being Pauls problem in having to resolve the differences between two ladies of his church. The usual tea service was held in the activity room. It was hoped that plans for a future treasure hunt would be discussed.

A big problem in our society today, especially among politicians, is the absolute inability to distinguish between right and wrong. In that respect they and many others like them are very stupid. If they were to choose instead the other comparable antonyms wisdom and folly, the decisions they make may be of greater significance and

Public speaking contest held in Coboconk

On Tuesday evening, March 7, 1978, pupils from Burnt River, Coboconk and Norland Schools met to compete in a public speaking contest at the Canadian Legion, Branch 519, in Coboconk.

The Junior Division was represented by: Kelli Chaisson, Burnt River; Sari Soikkane, Burnt River; Heather Shepherd, Coboconk; Cori-Lynn Weaver, Coboconk; Melody Nicholls, Norland and Karin Gilmour, Norland.

The Intermediate Division was represented by: Heather Mason, Burnt River; Ev-Anne Chaisson, Burnt River; Michelle Shepherd, Coboconk; Ralph Gillett, Coboconk; Denise Gray, Norland; and Anne Patullo, Norland.

The Junior Division was won by: Kelli Chaisson of Burnt River with a speech on "Hearing".

The Intermediate Division was won by: Ev-Anne Chaisson of Burnt River with her speech on "Child Abuse".

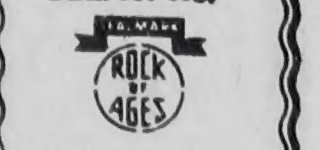

The contestants were presented with scrolls and the winners with plaques by John Mathieson of the Legion.

Kelli and Ev-Anne will compete at the zone finals at the Woodville Legion at 1:00 p.m. on March 19, 1978.

for love, for remembrance, forever.

Good year predicted for Maple Syrup

Strong prices, firm consumer demand, and the introduction of new technology promise to make this year's maple syrup season a big success. All that is needed now is the co-operation of the weather.

The sap will start flowing in Eastern Canada maple bushes about mid-March and run until mid-April. If producers get the right kind of weather - sunny days and frosty nights - national production will go well above two million gallons. And the total value should be substantially above last year's estimated \$22 million.

Agriculture Canada maple syrup specialists say the strong prices growers received for the 1977 crop will likely encourage greater production this year.

Last year producers got between \$13 and \$15 per gallon for the top grades, and \$6 to \$7 per gallon for bulk sales to processors. Average producer price per pound for all sales in 1977 is estimated at 70 cents.

In Quebec, where more than 90 per cent of Canada's maple syrup is produced, the provincial government is encouraging the use of plastic tubing. This involves inserting plastic taps into the maple trees, with the sap running directly to the evaporator site or to central collection points. The technique yields 30 to 100 per cent more sap and greatly reduces labor costs.

In response to rising oil and gas costs, many producers are returning to the use of wood to fire their evaporation tanks.

The sap must be heated to about 104 degrees C. Water,

which constitutes about 96 per cent of the sap, is evaporated, until a syrup of at least 66 per cent sugar is obtained. To get proper density, requires great skill on the part of the producer.

Canada No. 1 maple syrup must be uniform in color, free from cloudiness, and meet the requirements of Extra Light, Light or Medium color classes. It must have no trace of fermentation or other objectionable odor or taste. The same requirements hold for Canada No. 2 syrup, but a stronger maple flavor is allowed and the color class must be amber. Canada No. 3 maple syrup is used for processing, or exported for use in syrup blends. It is not considered a retail product.

Ontario, Quebec and the Maritimes have different grade names, but all maple products must meet the requirements of the Maple Products Regulations administered by Agriculture Canada's fruit and vegetable division if the syrup is sold interprovincially or on export markets, or if the Canada grade standards are used.

Recently, producer associations have stepped up promotion efforts, and are vigilant against the use of the name "maple" on syrups that are not pure maple syrup.

For more information on maple syrup, write to Agriculture Canada, Information Services, Sir John Carling Building, Ottawa, Ontario, K1A 0C7. The booklet, A Taste of Maple, publication 1621, contains recipes, background on maple syrup, and tips on buying, storing, and serving this Canadian confection.

Gems of Truth

The Crisis Hour

The hour determined in the councils of eternity, when God's beloved Son will die for the sins of the world has arrived. The crisis in the life of Jesus had arrived. It was this hour to which John the Apostle referred to so often. John 7:30, 8:20, 12:33, 13:1, 17:1. Upon the events of that hour hung the eternal destiny of mankind. It was indeed the most "momentous hour" in the world's history. It was the "hour" when the Son of God was to grapple with the powers of darkness, which would make one last effort to prevent His going to the Cross. The prince of darkness (Satan) knew if Christ triumphed, his days were numbered. Thanks be to God that the Lord Jesus came forth from the conflict victoriously and conquered sin, death and the devil. Hebrews 2:14.

Let us look at the scene where the battle was fought and won. "He went forth with His disciples over the brook Cedron, where was a 'Garden', into the which He entered, and His disciples" John 18:1. This was the Garden called Gethsemane. Mark 14:32. Math. 26:36. It was on the slope of Mount Olivet, and therefore outside of Jerusalem. It was not to hide Himself from His enemies, that He entered the Garden, for it was known to Judas the betrayer. John 18:2. This place was to be the scene of His prayers and His agonies, the scene of His last battle with the powers of darkness before Calvary. It was in a "garden" that man fell and was "driven" out. Genesis 3:24. Our Lord Jesus was to go forth "voluntarily" from a Garden to die for man's sin, and to open up the gates of Paradise which were closed against man because of sin.

One can not but help notice the contrast there is between the serenity of our Lord's High-Priestly Prayer, John 17, and the overwhelming distress that shook His soul in Gethsemane's agony. He was sorrowful. Math 26:37, "exceeding sorrowful, even unto death v. 38. Why this change from calmness to sorrow and anguish and dread? It was because "the hour" had come when Satan was facing the Saviour and doing His

utmost to thwart Him from carrying out the Father's will. The word which Jesus used in His agonizing hour was "this cup" and has reference to the words with which He had instituted the Feast of Remembrance. Luke 22:42. Math 26:28. The cup speaks to us of His "sacrificial offering" for the sins of men.

In the "crisis hour" Jesus asks the Father if there may not be some other way of deliverance for mankind from its doom. Is it possible that the dread cup may be avoided? "O My Father, if it be possible, let this cup pass from me, nevertheless not as I will, but as Thou wilt. Math 26:39. Is the salvation of mankind possible only by way of the Cross? Can His Father, in His infinite wisdom, not devise some other means to save those expelled from His presence through sin? The "silence" of the Father, or perhaps His whisper within, reveals to the suffering Son that there is no "other" way.

The "Suffering One" now implores for "strength" to do the Father's will. Math 26:42, and for "grace" to be "obedient unto death" Phil 2:8. He must not fail us sinners, man's salvation is completely

dependent upon His carrying to completion the Father's will in sending the Son to save the lost. His plea for strength to perform it is answered, "and there appeared an angel unto Him from Heaven, strengthening Him" Luke 22:43. But the battle was not yet over, and we read in verse 44, "and being in agony He prayed more earnestly, and His sweat was as it were great drops of blood falling to the ground". What assaults Sa-

tan all made on our Lord in that hour is not known to man, but the battle was fierce, and Jesus came through it the Victor.

The Son of God, now comes forth from that garden like a strong man armed, fully ready to go forth to Calvary.

to pay the full price for the redemption of the world. Hallelujah what a Saviour! He now awakens the slumbering disciples and calmly says: "Rise, let us be going". Math 26:46. And on to Calvary. He went to "seal" the "Covenant of the Cup" with His

"blood". Remove that "seal" and there is no other way lost mankind can be restored to fellowship with their Creator. "Without the shedding of blood, there is no remission of sin". Hebrews 9:22, 10:18, Math 26:28, Acts 2:38.

Inheritance

Inheritance Will Give Concert

Inheritance, a musical group representing the Barry Moore Crusaders, has recently completed a three month tour of Western Canada and are just now returning from Eastern Canada.

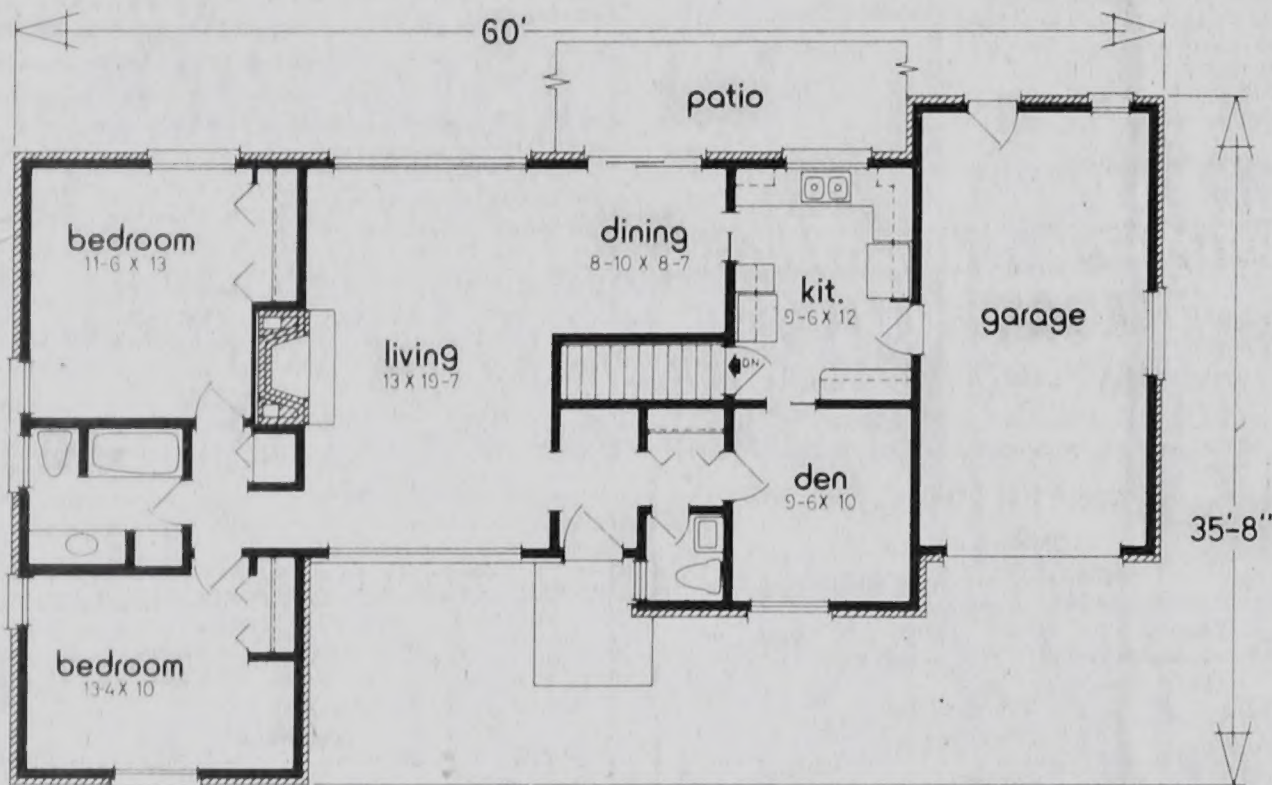

All are graduates of Ontario Bible College, Toronto.

They will be in concert March 28, 29, 30 in the Haliburton Area.

Dates and places will be published next week.

Home of the Week

Traditional Brick Bungalow

PLAN N° 65-1154
AREA: 1154 sq. ft.
WIDTH: 60 ft.

Plan Number: 65-1154

This two bedroom, full basement, contemporary brick bungalow is ideally suited to the wide frontage lot and affords the smaller family a broad range of convenience facilities designed for an easy and comfortable life style.

The brick veneer and heavily shingled roof of the exterior, combined with the shutter-accented windows, louvered vent and weather vane, creates an atmosphere of the solidly traditional English country cottage.

The weather-sheltered entrance leads into a small foyer and naturally left to the large L-shaped living-dining room combination. The living room features full-width windows front and rear and a centrally-positioned slate-hearth fireplace.

The dining room has sliding glass doors to a rear patio and separates from the kitchen via pocket door. The L-shaped kitchen is well planned for easy meal preparation and features a convenient snack bar counter for casual family meals as distinct from formal dining.

Separated from the kitchen via pocket door is a cosy, well-lighted den, which could either serve as a library/lounge, or the children as a TV and family room. The two-piece vanity bath is conveniently adjacent to the den and the main entrance.

Both bedrooms are located well away from the main activity area of the house for freedom from disturbance. Each has ample closet storage and excellent natural lighting. The three-piece main bath is central to both bedrooms and faces the linen storage closet for convenience.

A single full garage with adequate space for a workbench, and a full basement for future development, complete the facilities of this charming bungalow.

A pleasing traditional design offering excellent exposure for a rear view lot and many convenience features for the smaller family.

Plans for design No. 65-1154 may be purchased either by single set, at a cost of \$70 for the first set and \$10 for each additional set, or by the package. A five-set plan package, including the first set, is economically priced at \$100 and an eight-set package, also including the first set, is only \$125.

Whichever method you choose, please include \$4.00 for postage and handling.

Send for the current edition of Select Home Design, Series #36, featuring imaginative decorating and home improvement ideas plus 350 quality home plans of every type. Available for \$2.25 (\$1.75 plus 50 cents postage and handling).

To order any of these items please send cheque or money order payable to the Home of the Week. Address to: Home of the Week, c/o Haliburton County Echo, 382 West Broadway, Vancouver, B.C. V5Y 1R2.

DON'T GET CAUGHT IN THE

Energy Crunch!

PETERBOROUGH LUMBER CAN HELP!

**A COLD HARD FACT
ABOUT INSULATION:**

Although there is a good supply of insulation on hand at present, it will not last. Due mainly to the revised government regulations and an increased demand for all products, a shortage will occur even though manufacturers have increased plant potential. Add to this the fact that price increases of 5% to 10% will be introduced from the manufacturers within the next few months. If you don't buy soon... **CRUNCH!** Remember, insulation should be a year-round program, don't get caught in a short supply situation.

REASONS WHY YOU
SHOULD INSULATE

1. Saves you money on fuel
2. Adds value to your home
3. Keeps home cool in summer as well as warm in winter
4. Insulates against excess noise
5. Added fire protection
6. P/L's prices are good.

REMEMBER, WE'RE YOUR

Galway-Cavendish Council

The 1978 budget was the main item of business at the February meeting of Galway-Cavendish Township Council. Council approved a budget totalling \$310,899.85, excluding the 1978 levy for the County of Peterborough and the Peterborough County school board.

The budget was broken down as follows: General government \$59,034.85; Protection to persons and property \$17,000; Transportation services \$199,100; Environmental service \$6,205; Health service \$200; Social and family services \$2,000; Recreation and culture service \$2,850; Planning and development \$18,500; Election \$2,300; and Workmen's compensation \$3,700.

A report of the fire committee informed council that a volunteer fire fighter's association had the right to set up its own by-laws, and that strict attendance at meetings could be a part of those by-laws. A draft proposal on the fire department regulating by-law will be prepared by Chief J. Hickey and councillor H. Nokes in time for a proposed meeting of council with Mr. Pope of the Ontario Fire Marshall's Office.

A report of the roads committee noted that the MTC has been notified of the committee's feeling that the entrance to Scotts Road off highway 507 presents a safety hazard, as well as being impossible to snowplow as it is presently located. The MTC will be requested to review the situation. The committee has also registered a complaint about the level of snowplowing and sanding on highway 507 north of the Beaver Lake Road. The committee asked the MTC to give the road more priority, since it is a regular school bus route.

The report also said a projected five year plan for the municipality has been discussed. A decision on whether to use emulsified asphalt and stone chips or the Midland Paver mix method will be made on the basis of cost, since both methods appeared to the committee to be satisfactory.

Council was also informed that the municipality needs a new truck, and that the old vehicle will be used for sanding, once the new truck is purchased.

Council passed a motion authorizing the road superintendent and clerk to call for tenders for a five ton diesel truck with dump body, snowplow and harness.

In other business, council approved a commercial building permit for Gordon Daniels, lot 6, concession 18, Galway township, for the purpose of wood working and specializing in novelty signs.

A resolution from Otanabee township expressing concern about the increasing costs of heating fuels was endorsed by council.

J. Hickey was appointed chief fire warden for the municipality.

The regular 1978 road budget in the amount of \$142,500 was approved by council, and will be forwarded to the Ministry of Transportation and Communications. A supplementary road budget of \$56,000 will also be submitted by the municipality to the MTC.

Council authorized calling for tenders for 3,000 yds of 5/8 inch crushed stone delivered and spread on the municipality's roads.

Council agreed to be integrated with Peterborough county in its overall tender for

1978 for both oiling and hard top contracts. The road superintendent will submit the townships' interests in the matter.

General accounts of \$8,

886.87 Road accounts of \$8, 768.47; a Canada Works voucher of \$1,793.67 and a welfare voucher of \$148.16 were approved for payment.

TENDER GENERAL CONTRACTORS

Installation of new hardwood flooring in dining hall at Ontario Leadership Camp, Bark Lake, Irondale, Ontario.

Tender No. LIN-77-186 P67230

Sealed tenders will be received until 2:00 P.M. Local Time.

Township of Stanhope Planning and/or Administrative Employment:

Council is considering making application to the Provincial Government for financial assistance, to provide summer employment for Students who are enrolled in a Community College or University in the area of Planning or Administration Courses. Any Student who may be interested, please contact the Stanhope Municipal Office prior to March 22, 1978.

Gerald Bain, Clerk.

Ontario grant supports Glamorgan Park

Glamorgan Township Approved Park in Gooderham will be enlarged by one-half acre with the province providing a grant of \$300 to assist the land purchase by the township. Natural Resources Minister Frank S. Miller said this week.

The park comprises 13 acres of land in the hamlet of

Gooderham on the Burnt River, south of Highway 503 and its intersection with Highway 507.

The municipality plans to purchase one-half acre on the south side of Highway 503 and adjacent to the north boundary of the park.

THE EXPROPRIATIONS ACT

NOTICE OF APPLICATION FOR APPROVAL TO EXPROPRIATE LAND

TO: Beatrice Falconer and Hattie Minerva Lake

IN THE MATTER of an application by the Minister of Transportation and Communications for approval to expropriate lands being in the Townships of Glamorgan and Monmouth, in the Provisional County of Haliburton, in the Province of Ontario, for the purpose of widening and reconstructing a portion of the Secondary Highway 503.

NOTICE IS HEREBY GIVEN that application has been made for approval to expropriate the lands described as follows:

(a) in the case of a registered owner, served personally or by registered mail within thirty days after the first publication of the notice;

(b) in the case of an owner who is not a registered owner, within thirty days after the first publication of the notice;

THE APPROVING AUTHORITY IS the Minister of Transportation and Communications, Parliament Buildings, Toronto, Ontario, M7A 1Z8.

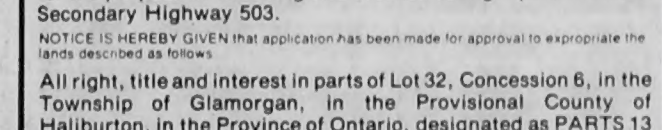

W.G. Wigle,
Regional Director
Postal Bag 4000
Kingston, Ontario K7L 5A3

NOTES:
1. The Expropriations Act provides that:
(a) where an inquiry is requested, it shall be conducted by an inquiry officer appointed by the Minister of Justice and Attorney General;
(b) the inquiry officer:
(i) shall give every party to the inquiry an opportunity to present evidence and argument and to examine and cross-examine witnesses, either personally or by his counsel or agent; and
(ii) may recommend to the approving authority that a party to the inquiry be paid a fixed amount for his costs of the inquiry not to exceed \$200 and the approving authority may in its discretion order the expropriating authority to pay such costs forthwith.

2. owner and registered owner are defined in the Act as follows:
owner includes a mortgagee, tenant, execution creditor, a person entitled to a limited estate or interest in land, a committee of the estate of a mentally incompetent person or of a person incapable of managing his affairs, and a guardian, executor, administrator or trustee in whom land is vested;
registered owner means an owner of land whose interest in the land is defined and whose name is specified in an instrument in the proper Land Registry or Sheriff's office and includes a person shown as a tenant of land on the last revised assessment roll.

3. The expropriating authority, each owner who notifies the approving authority that he desires a hearing in respect of the lands intended to be expropriated and any owner added as a party by the inquiry officer are parties to the inquiry.

This Notice first published on the 8th day of March, 1978.

THE EXPROPRIATIONS ACT

NOTICE OF APPLICATION FOR APPROVAL TO EXPROPRIATE LAND

TO: Malcolm Edwards McLean

IN THE MATTER of an application by the Minister of Transportation and Communications for approval to expropriate lands being in the Townships of Glamorgan and Monmouth, in the Provisional County of Haliburton, in the Province of Ontario, for the purpose of widening and reconstructing a portion of the Secondary Highway 503.

NOTICE IS HEREBY GIVEN that application has been made for approval to expropriate the lands described as follows:

All right, title and interest in parts of Lot 32, Concession 6, in the Township of Glamorgan, in the Provisional County of Haliburton, in the Province of Ontario, designated as PARTS 13 and 14 on Ministry of Transportation and Communications' Plan P-2233-24, deposited in the Land Registry Office for the Registry Division of Haliburton as Plan 19 R 1364, and being part of the lands of

PHILIPWAYNE ALLWARD

Any owner of lands in respect of which notice is given who desires an inquiry into whether the taking of such lands is fair, sound and reasonably necessary in the achievement of the objectives of the expropriating authority shall so notify the approving authority in writing.

(a) in the case of a registered owner, served personally or by registered mail within thirty days after the first publication of the notice;

(b) in the case of an owner who is not a registered owner, within thirty days after the first publication of the notice;

THE APPROVING AUTHORITY IS the Minister of Transportation and Communications, Parliament Buildings, Toronto, Ontario, M7A 1Z8.

If you require financing to start, modernize or expand your business and are unable to obtain it elsewhere on reasonable terms and conditions or if you are interested in the FBD management services of counselling and training or wish information on government programs available for your business, talk to our representative.

340 George Street North,
Peterborough, Ontario.
Telephone: 705-748-3241

Chatting with Irene

It doesn't seem possible does it, that our lovely weather has lasted so long. There is a feel of spring in the air, but March still has several weeks to go, and I am very careful during this month as it is so unpredictable. It has fooled me too many times.

I've been told that my column is too long, to those who think so, I wish to say that I try to cover news, also the Hockey in Minden, as we need that coverage. I do not mind the criticism as I know that the people who give it are at least reading the column, and that is what I get paid for.

Congratulations to Angus Coulter who celebrated his 80th birthday on March 10. I was talking to someone who had gone to his home to wish him many more, and was told that Angus just stopped work long enough to say thanks, then went back to work.

There was a Novice & Atom Hockey Tournament at the Arena on Saturday, and if you never have seen one of these, be sure and try to attend next year. Those children play hockey like you would not believe. One of the games in the morning was between Haliburton and Minden Novice teams. Haliburton won that one, but to me the laugh of the day was when one of

the Minden team was asked "why did you not play better, you know you can". The answer was "Haliburton owned the puck, so we let them have it".

It was an excellent tournament and the next to last game was between Haliburton and Bracebridge and those Novice Teams could put older teams to shame; for after three full periods the score was tied 1-1, and it took three overtime periods and two shoot-outs to break the tie, with Bracebridge winning. It was anyone's game and both coaches can be proud of their teams. To me that is hockey.

Home from holidays are: Mary Maidens and Daisy Bates from Mexico. Mr. and Mrs. Earl Hewitt and Reg Booth from a Caribbean cruise. Mr. and Mrs. Steve Berry from Jamaica. Mr. and Mrs. J. Hewson and Mr. and Mrs. Ted Madill from Barbados. Mr. and Mrs. Len Lonsberry from Florida.

You know it is funny who you meet far far away. I had a phone call from Earl Hewitt Sunday to say he had met several people he thought he knew on the ship and when they started to visit around one was our nephew and his wife the other was Ken

Harrison formally of this area now of Thornhill. It is a small world isn't it?

Mr. and Mrs. Gord Kellett and Mr. and Mrs. Dick Hillyard of Burnt River attended the Fur Fashion Show at the Trappers Convention in North Bay over the weekend.

The card party I mentioned last week for March 29 in aid of the Foster Child, will start at 8 p.m. and will have bridge, euchre and cribbage at the Parish Hall.

Mrs. Cora Hewitt enjoyed a visit with her sister Mrs. Myrtle Carpenter of Elmville, who spent a few days with Cora.

Professor and Mrs. Orie Loucks of Madison Wisc. USA spent the weekend with Vintor Loucks.

Congratulations to Dr. and Mrs. John Purc on the arrival of their daughter.

Mrs. Ab Upton and daughters Dorothy and Fern of Utterson visited with relatives in the village over the weekend.

The Bantam Hockey Team won the first of the three out of five series with Creemore last Saturday evening at the arena. Go Bantams Go!

Ron Welch of Grandford spent the weekend with his mother Mrs. Edith Welch, as he, his wife and family are spending the March break and Easter holiday in Tobago and Trinidad.

Miss Sandra Sears of West Hill spent a few days with her parents Mr. and Mrs. Sears.

Don't forget the Kinetix Dance this Saturday evening at the arena.

Roger Parsons of Weston visited with the Fred Wrights over the weekend.

After a heart breaking game at the arena Friday evening, which the Juveniles lost 8-6, they travelled to Havelock Sunday afternoon. I guess the first game with a different team is more or less a feeler because Sunday our Juvenile Kings went to town and trounced the Havelock team 5-2. Both games were rough and tough as that is the way Havelock plays, but our team can play that way too; and were ready for it in the second game. The next game will be here on Friday evening at 8 p.m. and may be very interesting. The thing that provoked me in the first game was the way the havelock fans behaved. They came up here thinking we were hicks and even brought drink into the arena, but it was gone fast when the police officers walked into the game. The game. The fans really are a lot worse than the players at most games. Saturday at the Bantam game the bus driver parked the bus right in the road and when I told him that was a road not a parking place

he was rude. If he does it again I will call for help, as I had to have help to get out without hitting the bus as it was. After a day at the arena surely one should be able to leave for home when ready!

Winners at the Mini Card Party last week were: bridge - Florence Copper; cribbage - Jeanne Sears, Vera Ward; euchre - lone hand - Gladys Wruth, Lloyd Sedgwick, Isabel Harrison.

There will be no Mini Card Party on March 23, but will continue March 30 until end of April.

Adios and take care now.

Misconduct:

- No running.
- No walking.
- No exercise.
- No effort.
- Penalty — a shorter life.
- No argument.

Fitness is fun. Try some.

From the Chamber

From page 5

A committee was established to set the wheels in motion to set up a business improvement area (B.I.A.) for downtown Haliburton. Once set up and approved the Municipal Act allows this group to impose a special tax levy on only those properties directly effected in order to bring about improvements that will create a more attractive and convenient shopping atmosphere in the village. Since the main street of Haliburton is scheduled to be repaved, the sidewalks and curbing replaced, and additional park facilities are being created on the waterfront this committee is being formed none to soon in order to pull all these things together.

ANOTHER NEW BUSINESS

James MacBrien is no stranger to folks around Minden, but the fact that he is now in his own business is possible news to many of you. J & S Services is the name of the business and the services involve Piano Tuning and T.V. Antenna installation and repairs. In this county it is unwise to put all your eggs in one basket and James is wise to become so diversified in his endeavours. We welcome him to our business community and wish him success. If you would like to do likewise give him a call at 489-2053.

SPRING MAPLE SYRUP FESTIVAL

The folks over in the Municipality of Monmouth

are at it again. On Saturday, May 25th, Wilberforce will once again be alive with enthusiastic supporters of the Second Annual Maple Syrup Festival held in and around the Lloyd Watson Memorial Hall all day and on into the evening. The days activities include a sugaring off demonstration, tours of the sugar bush, freshly made pancakes and sausages topped with maple syrup, a flea market, a hockey tournament, all of which will be topped off with a giant festival dance in the evening featuring the Adeles. Don't miss it because in Wilberforce these things just keep getting better every year.

OFF TO THE SPORTSMAN SHOW

There will be no Chamber column for the next two weeks since we will be at the Sportsman Show for the next twelve days and unable to prepare the column. Once again we would like to issue an invitation to all the folks from the Highlands that visit the show to drop in and say Hello at the booth, W 31. It's always so nice to see someone from home.

COMING EVENTS

March 29 - 8:00 p.m. Card Party at St. Paul's Parish Hall. Proceeds to the Foster Child.
April 5 - 8:00 p.m. Minden Library-Museum Committee Meeting at the Minden Library. Everyone Welcome.

At the family residence 191 Meadow Road, Whitby on Friday, February 24, 1978
Greta Florence Clement
Beloved wife of William Sytnyk, in her 55th year; daughter of the late Garfield Clement and Mrs. Mae Clement of Halliburton; mother of Mrs. William Warburton (Kenza) of Oshawa, Mrs. Jackie Cameron (Raylene) of Port Perry, Michael McClean of Port Perry, David McClean of Oshawa, Roland (Butch) McClean of Calgary; stepmother of Barry Sytnyk of Pontypool, Allan Sytnyk and Linda Sytnyk of Oshawa; sister of Mrs. Brian Henderson (Elsie) of Oshawa, Mrs. John Gibson (Audrey) of Oshawa and Mrs. Anne Stone of Oshawa, William Clement of Port Perry, Kenneth, John and Leonard Clement all of Oshawa.

FUNERAL SERVICE
Rested at the Armstrong Funeral Home, Oshawa with funeral service in the chapel on Monday, February 27, at 3 p.m. Interment Mount Lawn Cemetery.

IN MEMORIAM

NEWELL - In loving memory of a dear father and grandfather, Irvin Newell and our sister Joy Newell.

Their presence we miss, Their memories we treasure, Loving them always, Forgetting them never.

Lovingly remembered by Mike, Yvonne, Kevin, Cheryl and Glenda.

AUSTIN - In loving memory of a dear father, grandfather and father-in-law, Norman, who died March 11, 1976.

We often think of bygone days, When we were all together. The family chain is broken now, But memories will live forever.

To us, he has not gone away, Nor has he travelled far, Just entered God's eternal home And left the gate ajar.

Lovingly remembered by daughter and family Norma, Terry, Kevin and Ricky Barum.

CLARKE - In loving memory of a dear father - mother and sister who passed away John Clarke - March 16 - 1927, Alma Clarke - June 14 - 1952; Irene Shaw - Dec. 21 - 1953.

In a quiet country graveyard Where the gentle breezes blow Lies three we loved so dearly Lost some years ago. We do not need a special day To bring them to our minds, For the days we do not think of them, Are very hard to find.

Lovingly remembered by Harold Clarke and Florence and Robert Walker and Family.

MINAKER, George - In loving memory of a dear husband and father who passed away April 2, 1977.

God saw you getting tired When a cure was not to be So he closed his arms around you And whispered come to me You did not deserve what you went through So he gave you rest God's garden must be beautiful He only takes the best

Sadly missed, Eileen, Gary, Glen and Laura.

CULLY, Lloyd, In loving memory of a dear husband and father Lloyd Cully who departed from us March 17, 1975.

To know we never said goodbye, Will always bring regret But hearts that loved you dearly Are ones that don't forget. You were always true and patient Through the years you struggled on Those hands at rest forever Made the home that now is gone.

Sadly missed and ever remembered by wife Made-line and Family.

IN MEMORIAM
SIMS - In loving memory of a dear husband, Bev, who passed away March 24, 1961.

You were a loving husband, A pal so good and true A better husband never lived Your equals are but few. It broke my heart to lose you But you didn't go alone. For part of me went with you, The day God called you home.

Sadly missed and loved by wife Toots.

Obituary
Isabell Beatrice Sawyer

Isabell Beatrice Sawyer of Halliburton passed away at the Red Cross Outpost, Halliburton, on March 1, 1978. Bell was born in Arborfield, Saskatchewan, on August 10, 1920. She was the daughter of the late Fred & Isabell Cummings.

The deceased who was in her 58th year was the beloved wife of the late Wes Sawyer and mother of the late Wayne Bell had been in poor health for a period of 3 years and during most of that time was in considerable pain which she bore with remarkable fortitude.

Bell Sawyer had been a faithful and active member of the Salvation Army for many years and was held in high esteem. This was attested by the many who crowded the Salvation Army Citadel to pay their last respects and the many beautiful floral tributes.

The service was under the direction of Capt. Douglas Burry, who paid high tribute to the late Isabell Sawyer and spoke words of comfort to the bereaved family.

Left to mourn the loss of a dear and loving mother are daughters: Rose (Mrs. Murray Ackley of Wilberforce) and Bev Sawyer of Halliburton, also survived by nine grandchildren and brother Gordon of Powell River, B.C.

Pallbearers were: Arthur, Morrison, Charles Morrison, Orval Morrison, Fred Sawyer, Ken Sawyer, Cliff Barry.

Temporary interment was at the Evergreen Cemetery vault for spring interment at Evergreen Cemetery, Halliburton.

Report from Parliament

by William C. Scott, M.P.

From page 5

the motion. One dissenting voice is sufficient to prevent debate from taking place.

Some members say that Standing Order 43 has become irrelevant because it is rarely if ever successful in forcing debate. Mr. Diefenbaker disagreed, and so did I. There have been times when a member has been unable to get recognized to ask a question, and has had to resort to the S.O. 43 to get an issue before the House and the public. I have used S.O. 43 for that purpose, and will continue to do so whenever I deem it necessary. It would be better, though, if we were able to ask questions of ministers.

Minden Horticultural Society Meeting

The regular meeting of the Minden and District Horticultural Society was held in the Minden Municipal Building on Tuesday, March 7.

The President welcomed everyone and mentioned that a draw for a Rieger Begonia would be held at the close of the meeting.

The minutes of the February meeting were read by the Secretary and approved, then correspondence was dealt with.

A beautifully illustrated book on "Pruning" was shown. This book had been sent by the Brooklyn Society for our library, as our president used to be a member there.

The library is growing, so it was suggested that a librarian be appointed, and Mrs. Dick Kirkwood offered to be the librarian.

The president announced that the speaker for the April meeting would be Leroy Brown of Lindsay. Mr. Brown will be speaking on Spring Gardens.

The speaker for the May meeting will be G. Tink who will be speaking about Dahlias. Mr. Tink is the director for district 4, to which we belong.

The president called for comments on the trip to the Flower Show, and everyone enjoyed the visit, but some said they didn't have enough time. The protests were over the music being too loud, also no coffee places upstairs, also charter buses not knowing where to park. A letter is being sent to the Toronto club thanking them for such a lovely show.

The president then introduced Mrs. Campbell from

the Garden Centre who had brought some plants with her. She told everyone about each plant and what was needed to grow them successfully. The first was a Rieger Begonia, then an Azalea, followed by Cinnareca and Cyclamen, then Geraniads, also stag horned Fern. Orchid plants were also shown, then she told the members what to do about Daffodil and Tulip bulbs, after they are done blooming.

There was a question and answer period after the talk, and pamphlets were given to those present.

George Tipton thanked Mrs. Campbell for the very informative talk, the gift of so many helpful pamphlets.

Mrs. Brubacher was the new owner of the Begonia.

The next regular meeting will be held on April 4, same place, at 7:30 p.m.
